DUNKIRK, WARREN AND PITTSBURGH RAILWAY.—A bill was passed in the House of the New York Legislature last week to facilitate the construction of the Dunkirk, Warren and Pittsburgh Railway.

THE CROPS.—The Hanover, York county, Pa., *Spectator* says that the prospect of large crops in that section never looked brighter. If no heavy frosts occur about the time of blooming, the fruit crop will be very heavy.

EMIGRATION TO MONTANA.—The Oil City *Register* announces that a large number of the citizens of that place contemplate leaving there this spring for the gold fields of Montana. They propose to take boat at Oil City, and proceed from thence to the head of navigation on the Missouri and Platte rivers, from whence they will proceed overland to their destination.

NEW SEMINARY AT CLARION.—The new seminary building to be erected at Clarion borough, Pa., will be of brick, three stories high, and one hundred feet long and sixty wide. A skillful Cleveland architect is preparing the plans and specifications, and the Board of Trustees expect soon to advertise for proposals from contractors. A boarding house in connection with the institution is also in contemplation.

THE New York *Times* discredits the report as to the note from Bismarck to Napoleon, so far as its alleged tenor is concerned. Such a note would be disclosed only after its receipt by the French Cabinet, and if Bismarck meant war, it is held he would not have commenced by insulting the whole French nation. The demand which Bismarck has made on the French Emperor would he tantamount to a demand to surrender before a blow was struck. And for a variety of reasons the *Times* thinks the report is improbable.

PENNSYLVANIA MAIL LETTINGS.—The following postal contracts, for carrying the mail, were awarded last week, the length of service being from July 1, 1867, to June 30, 1868: Route 2,862, Pittsburgh to Arsenal; John Lyons, $200. No. 2,864, Rochester to Beaver, William P. Alcorn, $315. No. 2,731, Tidioute to Perry; Peter Evans, $800. No. 2,846, Erie to Union Mills; W. W. Robinson, $189. No. 2,871, Petroleum Center, to Cherry Tree; Wm. Sutley, $195. No. 2,896, Conneautville to Pennsylvania Line; O. H. Seager, $96. No. 2,897, Petroleum Center to Plummer; John W. McClure, $500. No. 2,904, Titusville to South West; W. H. Caswell, $550.

The Sculling Championship—The Paris Regatta.

The approaching sculling match between James Hamill, of Pittsburgh, and Walter Browne, of Portland, Maine, for the American championship, is beginning to excite greater attention. Browne, who arrived in Pittsburgh yesterday, has been taking his daily exercise towards getting in trim for the interesting event, and Hamill is not idle, although he will not commence his regular training until some day this week. An exciting race is confidently looked for, and thousands of visiters will come to the city from the neighboring cities and towns.

A. Fleuret, President of the Paris Rowing Club, has extended an invitation to American amateurs to take part in the international rowing matches, to take place at Paris on the 7th and 8th of July, during the Universal Exposition. The races are open to the amateur rowers of all nations, but entry shall not be allowed to watermen—that is to teachers of the art or professional rowers; nor shall any person, who may have served or does serve for pay in the races, be allowed to row.

Trade of Philadelphia.

The *Ledger* says the trade of Philadelphia, though not large, is satisfactory. Almost all the jobbing houses on business streets are kept busy far into the night in packing up the sales made through the day. A very fair amount of this trade is from the South—mainly from Virginia and North Carolina. The West is also buying in moderate amounts, tempted thereto by the low prices at which domestic woolen goods for summer wear are offered, the prices ruling as low or lower than before the war. What credit there is, is short, and those to whom it is extended are not so far removed from reach and control as some years ago, when bales and boxes were sent two thousand miles into the interior on eight and twelve months' credit. The heavy commission houses do not show the activity that characterizes the jobbing trade. It is dull, and is no doubt made more so by the unexpected financial stringency.

The Colorado River.

Mr. Samuel Adams, of Arizona, is now in Washington on a mission to induce the Government to send a surveying party to continue the exploration of the Colorado river. This remarkable and magnificent stream Mr. Adams has recently demonstrated to be perfectly navigable for steamers of six feet draft to Callville six hundred and thirty miles above its mouth. The terrible dangers and perils of the canons Mr. Adams proves to be humbugs, chiefly perpetuated by the California Navigation Company, who now monopolize the transportation business of the river, and by false representations seek to deter others from embarking in the same business. The swiftest current found in any of the canons was only two and a half miles per hour. Mr. Adams's chief object is to secure Government aid in exploring the river from Callville to the junction of the Grand and Green rivers, a distance of three hundred and fifty miles.

Gen. Grant in the South.

The Augusta (Ga.) *Chronicle* speaks in warm terms of Gen. Grant, and in view of the next Presidential campaign says "there is but a single course left to us for self-preservation—our only resource is the magnanimity of those who know the perils of battle and the trials of the camp. They alone can estimate rightly the blessings of peace and harmony. Grant is endeared to them by all the associations of successful war. His dauntless courage is written in the history of bloody campaigns. His magnanimity at Lee's surrender touched every Southerner. Repeated acts of generosity and kindness adorn his intercourse with us, in the midst of troubles and anxieties, and menaces and persecutions. Nor is his love of constitutional liberty less than his valor and magnanimity. When the enactment of Congress vested in him the sole power to enforce the existing military law, he voluntarily subjected all acts and all proceedings to the approval of the President. Could there be a greater peace-offering, by the soldiers of the South to their victorious brethren of the North than Ulysses S. Grant?"

England and Spain—What the Trouble is About.

The *Tornado* case which threatens to become a serious matter between England and Spain, arose from the Chilean war. In August, 1866, the Spanish Admiral seized an English steamer which had just cleared at Maderia for South America. The pretext was that the vessel was carrying munitions of war to the belligerent republics. The seizure was made under circumstances of unnecessary severity to the captain and crew. They were detained several months in prison, and at last forty-four of the fifty-one sailors were released, the captain and five men being detained to give evidence respecting the alleged illegal character of the Tornado's cargo. The English government protested against the seizure of the vessel, and demanded its release and the liberation of the captain and the five sailors. The Spanish government hesitated, and, after a delay of several months, during which a great deal of diplomatic ink was wasted, it resolved to send the case before a prize court. The English goverment demurred to this, and the latest news is that a British fleet had been ordered to Cadiz to demand satisfaction, and that the Spanish authorities had resolved to stand firm. If force can do it, England will have redress for this indignity from Spain; for English people of all parties are greatly excited on the subject.

Black Band Ore Developments.

The shipments of black band iron ore from the McGinnes shaft, Mill Creek, Schuylkill county, to Pottsville, continue to average about a hundred tons per week. The Pottsville *Standard* of Saturday says:

Messrs. Daniel and James McGinnes, who have been for some time past engaged in sinking a shaft on the outcrop of a vein of black band on the eastern end of the Mammoth Vein Coal Company's tract, have struck the black ore at a distance of about 115 feet from the surface. The ore is hard and heavy, and ready for the furnace. It is on the same axle as the McGinnes vein, and is apparently the same vein. It is about 34 inches in thickness. The Mammoth Vein Coal Company have opened a vein of black band on the west side of Mill Creek, on the north dip, near the McGinnes shaft, but in a different basin. The black ore has been struck about 10 feet from the surface. It is about thirty inches thick. We learn that what is supposed to be the McGinnes vein of black band has been opened on Lick Run, near Middleport. It lies between the Orchard and Primrose veins of coal, above the water level. It is 9 inches thick at the outcrop, but has widened to 3 feet, and is still widening as it goes deeper. This vein is 7 miles east of the McGinnes shaft, in the same basin. The outcrop of a vein of iron ore, supposed to be the McGinnes vein, has been found on the lands of the Phoenix Park Coal Company, about one and a half miles west of Minersville.

Special Dispatch to Pittsburgh Commercial.

WASHINGTON, April 13, 1867.

Activity in Political Circles.

The contemplated adjournment of the Senate on Tuesday caused unusual activity to-day in political circles. The lobbies of the Senate Chamber were filled with anxious office-seekers, awaiting action on their cases.

Secret Session.

The moment the Senate went into executiue session, a spirited debate sprung up on the publication of the recent proceedings of the secret sessions, even to giving the vote on certain confirmations. It was contended that it was an abuse of the privileges of the Senate, and that the correspondent so offending should be punished. Mr. Conkling suggested that the fault, if any, was with the Senators who communicated what transpired to the reporters. A Senator called for the reading of the rule relating to the secrecy of the executive session, but much to the surprise of many of the new Senators, it was ascertained that there was no such rule. It was maintained, however, that secrecy was implied by the simple fact of a secret session.

Pending a proposition to put the Senators on oath not to divulge the proceedings, the question was laid oyer until Monday. Several Senators favored the immediate publicity of all nominations, which they averred would accommodate the press and save Senators a great deal of trouble.

Nominated to Austrian Mission.

The most important nomination made to-day was that of Henry J. Raymond, of the New York *Times*, as Minister to Austria. The name was duly referred to the Committee on Foreign Relations, who will probably report adversely on it. But it is understood that both of the New York Senators will urge his confirmation, which will make the vote very close in the Senate. It was declared, in debate yesterday, that no man who was in the Philadelphia convention should be confirmed for any office.

Legality of Reconstruction Act.

The Supreme Court was not in session to-day, but the judges held their usual conference in cases already submitted. It is said that on Monday, unless the counsel desire more time for argument, a decision will be rendered refusing the motion to file a bill for an injunction to prohibit the enforcement of the Reconstruction Act in Mississippi, on the ground that the court has not original jurisdiction.

The President.

The President has quite recovered from his recent indisposition, and to-day received a number of visitors, among whom were several Senators and Representatives. Secretaries Stanton, Welles, Seward, Browning and Postmaster General Randall also had interviews this morning.

The Cincinnati Postoffice.

The Senate last evening rejected Colonel Hunter Brooke for Postmaster at Cincinnati without a division. This afternoon, a delegation from Ohio had an interview with the President, and urged him to appoint Colonel James S. Wise to fill the vacancy.

The Ohio Soldiers' Home.

The National Soldiers and Sailors' Home, at their meeting here to-day, decided to locate the Soldiers' Home for Ohio at Dayton or White Sulphur Springs. There has been a spirited contest from several towns and cities to secure the site.

Nomination Confirmed.

The President has nominated for the third time W. H. Johnson, of Cincinnati, for Paymaster in the regular army, and he was confirmed this afternoon.

HIGHLY INTERESTING.

NEW YORK, April 14, 1867.

THE REVOLUTION IN HAYTI.

A letter from Aux Cayes, Hayti, of March 21st, states that when the revolution broke out against Geffrard, the country people attacked the town, but were repulsed by Geffrard's brother. There were great fears of another attack, and the impression prevalent that conflagrations might result. Jacmee was flooded with counterfeit money, eighteen millions of which was expected to arrive shortly. Several persons were arrested for passing it.

ANNIVERSARY OF LINCOLN'S DEATH.

The German Republican Central Committee observe the anniversary of the death of Abraham Lincoln by solemn ceremonies to-morrow evening at Cooper Institute.

SENTENCED TO BE HUNG.

Franz Eckerman was convicted of the murder of James Reynolds, in Rockland county, and sentenced to be hung on the 31st of May.

MAN SHOT.

A man named Meyer was shot on Friday evening at New Durham, N. J., by a bar tender named Rudowski, at the alleged instigation of Meyer's wife, who separated from her husband some weeks ago. The wound is not fatal.

REPRISAL.

Washington specials to the *Herald* state that a rumor prevails in diplomatic circles that England intends the seizure of the Phillipine Islands as a reprisal from Spain.

NAVAL CHANGES.

Admiral Farragut relieves Goldsborough in command of the Mediterranean squadron. Rear Admiral Davis relieves Gordon in command of the South Atlantic squadron, going out in the Guerrierre. Commodore Sands is likely to succeed Davis in the Naval Observatory.

NEGRO REGISTER OF VOTES.

A negro school teacher has been appointed register of votes under the Military bill in Alabama, on the recommendation of prominent white citizens of Jackson county.

MURDER BY INDIANS.

A dispatch from Fort McPherson, Nebraska, states that a mail party from Fort Phil. Kearney to Fort Laramie, in charge of Mr. Vanvalsey, Government scout, and a sergeant and twelve men of the 2d Cavalry, were killed, scalped and mutilated by the Indians, eighteen miles east of Fort Reno, on the 9th. None escaped. It is feared the Crows will join the hostile Sioux, in which event Fort C. F. Smith will be in great danger.

MORTUARY.

The deaths in this city last week were four hundred and seven, twelve less than the previous week.

SAILING OF STEAMERS.

Fifteen ocean steamers sailed from this port yesterday, with passengers, mail and freight, of which seven were for Europe, the rest for Cuba and Southern ports.

THE ENGLISH COLLEGE REGATTA.

A special cable dispatch to the *Herald* says a great race between the Oxford and Cambridge University boat clubs, on the river Thames, took place yesterday. Great interest was manifested, and the banks of the river for four miles were lined with spectators. The race was the most exciting one ever witnessed of the kind. Oxford won by about half a length; time, twenty-two minutes, thirty-nine seconds.

FAMINE RELIEF COMMISSION.

The General Agent of the Southern Famine Relief Commission states that the cash receipts up to the present time are $165,000. Of this sum California sends in gold $31,000, or increased to currency $40,000; New York $13,000, and the country West and East $74,000. The distress is authoritively stated to be urgent and increasing. Relief through the Freedmen's Bureau under the recent act of Congress is inadequate, and increased contributions are urgently solicited.

ARRIVALS.

Arrived, steamer Ocean Queen, from Aspinwall on the 4th, with $1,146,583 in treasure. The United States storeship Onward, from a two years' cause on the Brezil station, arrived at Aspinwall March 24th.

From Montreal.

MONTREAL, April 13.—Sophie Boisclaire has been examined by a jury of matrons, who returned a verdict that she was quick with child. The Judge, in passing sentence upon her, spoke of the proofs adduced in the case, which leave no doubt of her guilt in murdering her husband. She was sentenced to be hanged on the 20th of November next. She cried bitterly, protesting her innocence, and asserting that her husband poisoned himself.

Farther Point light house and dwelling house attached, were burned to the ground this morning.

Discount on American Invoices for the ensuing week, will be 27 per cent.

The course pursued by Mr. Gladstone is severely criticized, while that of the Liberal members who deserted the party is lauded. The *Times* thinks the Liberal bolters hold the balance of power now, and virtually control the Reform bill.

MEXICO.

Imperialists Routed at Celayae.

THE SITUATION AT QUERETARO.

Scarcity of Food on Both Sides.

NEW YORK, April 14.—Mexican letters from the headquarters of the Liberals in front of Queretaro, to March 22d and San Luis to the 26th, contain details of the recent engagement at Celaya. The complete route of the Imperialists is again confirmed. Several roads for escape are still open for Maximilian, and the people of Queratora aid him liberally with supplies. The besiegers are also suffering for food, and the contest turns on the question of which army will be starved out first. Escobedo is considered incompetent for his position.

A portion of Coahuila is again in rebellion, under the leadership of Gen. Herrera, who proposes to erect the Lagunas district into a separate State. Trouble is apprehended from this movement, as the insurgents might easily move on Saltillo, and the Liberal General Ortega.

BY FOREIGN MAILS.

The Cession of Luxemburg to France—Debate in North German Parliament—Austria will Stand by Germany—Significant Comments of the London Press on the Russian-American Treaty.

NEW YORK, April 13.—The steamship Deutschland, from Southampton on the 2d, arrived to-night.

The Paris correspondent of the *Standard* says the feeling is unanimous that the French Government stands committed to a step as regards Luxemburg which, whilst it fails to allay the apprehension and irritation caused by the aggrandizement of Prussia, is regarded as likely to precipitate a European war.

The official *Gazette* of Holland positively denies that the Duchy has been ceded to France, and adds that there can only be a question of such a cession if the great powers who are interested have first come to an understanding on the subject. A telegram from Luxemburg says hand bills are circulated in town in favor of annexation to France, and instigating the inhabitants to acts of violence against Prussia. In the North German Parliament Herr Von Beringsen asked Bismarck whether there was any truth in the rumor of negotiations between Holland and France for the cession of Luxemburg, and whether Prussia is prepared to say it will withstand any attempt to sever Luxemburg from the rest of Germany. Beringsen's motion declares also that all parties would be united in giving their utmost power full support to prevent the separation of the ancient land from the rest of Germany.

Rumors are prevalent in Vienna that a preliminary treaty of alliance was agreed upon between Prussia and Austria. The official *Gazette* denies this in toto.

A new bill was introduced in the Hungarian Parliament for recruiting the army.

The Emir of Bokhara has been defeated by the natives of one of his provinces, and forced to allow it to become an independent State.

The resignation of Count Walewski was caused by his non-approval of the army organization project as originally proposed. He would not browbeat the minority in the Legislative Chamber, and strove to act with perfect impartiality as its President.

BERLIN, April 1.—Herr Von Beringsen's motion was put to-day. Beringsen said: We wish for peace, but will not shrink from war if it be necessary to repel the very first attempt of France to attack our honor. Let us give a speedy and resolute answer to the warlike tendencies of France, and we shall stifle them in the bud.

Bismarck, in his reply, said the Prussian Government did not know that an arrangement for the cession of the Duchy had been concluded between Holland and France, but the Federal allied Government believe that no foreign power will endanger the undisputed right of Germany. They hope to practice these rights more safely by peaceful means, and preserve good relations with foreign powers.

The Vienna correspondence of the *Bank Gazette*, says the Austrian Embassador at Berlin has been instructed to declare to the Prussian Government, that in the hour of danger Austria will stand by Germany. It is thought the object of the visit of the Crown Prince of Saxony to Berlin, was to announce the military course of Saxony, organized as federal troops.

The London *News*, of the 2d, says editorially, that Russian, America has been acquired by its natural purchaser, a great progressive power, of whose advances we cannot complain, so long as they are achieved by legitimate means.

The *Times* of the 2d says editorially on the same subject: Since we have no right to protest against an act entirely within the discretion of the Russian and United States governments, let us not place ourselves in a false position by vain remonstrances; let us forbear to fasten upon this unexpected transaction a hostile construction, or to insist upon rights and interests which are incapable of being sustained.

FROM SAN FRANCISCO.

Donations for Southern Destitute—The Harris-Chandler Fistic Argument—Harris "Knocked out of Time" in the Twenty-Second Round.

SAN FRANCISCO, April 13.—The Southern Relief Committee of San Francisco to-day telegraphed through the Bank of California thirty thousand dollars to the New York Relief Commission, for the benefit of the destitute people of the Southern States.

This morning five steamers and a hundred sailing craft, crowded with people, left the city front and proceeded across the bay to near San Pueblo, to witness the prize fight between Dooney Harris and Tommy Chandler, stakes five thousand dollars. Twenty-two rounds were fought; time, thirty minutes. The first blood and first knock-down were for Chandler, who regarded it as a laughing matter, knocking Harris out of time in the twenty-second round.

From Toronto.

TORONTO, April 13.—A special dispatch to the *Globe*, from Montreal, says a force of United States troops arrived at Rouse's Point, yesterday. The impression on the frontier is, that a Fenian raid will be made before a month.

The hotel kept by Mr. McFein, in Hemmingford, was attacked the other night by roughs from the other side. They were fired on and driven off.

A pilot schooner, with seventy-five pilots, left Quebec yesterday for the Gulf, to await the Spring fleet.

THE GREAT REPUBLIC.

The Return Trip to Cairo and St. Louis—Scenes and Incidents.

Special correspondence of the "Commercial."
ON BOARD THE "GREAT REPUBLIC," April 10, 1867.
CAIRO, ILL.

To-day we arrived at this place, having left New Orleans on Thursday last; accidents to the machinery, dark nights and fog, have kept us much longer on the road than we anticipated.

AT NEW ORLEANS.

Our stay at New Orleans was very pleasant. Fortunately, the weather was clear, and sunshine was something of a curiosity to us, who had experienced almost continual falling weather since our departure from Pittsburgh; I may say that it was duly appreciated. It was a little too warm for us at times; but, notwithstanding, most of the excursionists spent the entire time in circumambulating the city, and seeing all the sights. The Shell road, the Lake and the French market came in for a full share of admiration. In the latter place we all partook of a cup of coffee, for which the place is celebrated, at daylight in the morning. We also indulged in all the fruits, and luxuriated in fresh vegetables, strawberries, and other delicacies peculiar to the climate at this season of the year. I may be excused for mentioning the fact that we were evidently recognized as strangers by the dealers in desirable articles, who didn't forget to charge us. Such, however, is the usual fate of travelers in strange parts, and all hands bore the little impositions without a murmur.

During our stay at the Crescent city, our Great Republic was visited by thousands of the citizens, and elicited universal admiration. She is, without doubt, the largest and most magnificent river craft that ever arrived at New Orleans.

LEAVING.

Many hours before we left New Orleans every stateroom and berth on the boat was taken, and scores of applicants were refused on account of the want of accommodations. Our own party of excursionists was somewhat depleted by the departure of some of the gentlemen, who return by way of Havana and New York, and the "Lazy Loafers",—an association which I mentioned in a former letter—lost most of its laziest, and hence, most important members. We had still enough left to make a clever party, and as all were very much fatigued with the course of sight seeing which we had passed through, there were few or no regrets at our starting up the river.

There was nothing of special notice on our trip up the river, with the exception of the machinery, which retarded our locomotive power a little, until on arrival at Greenville, Miss., on Sunday afternoon. Here we halted for an hour to repair the machinery, and as we had nothing better with which to occupy our attention, many of the passengers wandered ashore. In the course of our perambulation we were attracted to a small shanty, wherein a congregation of citizens of African descent were holding meetings and doing some very fair shouting. Curiosity, perhaps, as much as anything else, prompted us to enter the sanctified abode. We were well received by the colored brethren, who provided seats for us, and then proceeded with the service. The room was probably twenty by twelve feet square, and as there was already about twenty people, mostly colored ladies, assembled, your correspondent took a seat on a neighboring stump, outside, and listened to a sermon, which I take the liberty of terming, rich, racy and rare. It was much enjoyed by all who heard it. The preacher was a large man, whose skin would rival in blackness the blackest of Anner's host, and whose neck was "ensconced" (I use the term advicdly) in a white neck-cloth of the most magnificent proportions. He was not what is called a beautiful man by any means, and a pair of brass rimmed green goggles which bridged his nose added little to his appearance that was commendable. He was evidently sincere though, and that made up for his lack of beauty.

A DONATION.

At the close of the meeting a collection was taken up from among the assembled passengers of the "Republic." A clever sum was realized and presented to the minister with instructions that a Bible should be purchased. The presentation speech was made by J. W. Kirkpatrick, Esq., of Pittsburgh.

A PITIFUL PICTURE.

Before the conclusion of the services, the minister announced that there was a poor woman lying sick in the town who needed assistance, and that a collection would be taken up for her benefit. No sooner had the announcement been made, than one of the passengers standing outside, went around among the few gentlemen who were present, and in a few moments collected the sum of $9, which was handed to one of the citizens to be used in behalf of the sick woman. The announcement that there was a person in distress, awakened a feeling of interest in the hearts of the philanthropic ladies present, and they seized upon the opportunity to visit the unfortunate woman. What a sight met their eyes! In a loathsome little shanty, which a few days before had been inundated by the flood, the poor creature lay upon the ground, with nothing between her and the earth, but a miserable pallet of straw and filthy rags. Her eyes were sunken in her head, and her frame was worn by sickness, to the unsightly proportions of a skeleton. By her side was a crust of coarse musty bread and a cup of water. This was her diet.

With that true womanly feeling and sympathy for the unfortunate and the suffering, our ladies did all they could to alleviate the sufferings or the sufferer. They presented her with money from their own pockets, and as they turned to give instructions to those of the citizens who had bestowed a little care upon the unfortunate woman, for her to be sent to the hospital, tears of sympathy answered the thanks which the sick woman showered upon them. I glean the following history of the woman, from some of the negroes who have attended her since her arrival at Greenville. It appears that about a month since, she was found one morning lying on the levee, where she had been left the night before by a passing steamer. Here she lay all day, until a snow storm coming up in the evening, urged her immediate removal to some place of shelter. She was taken in charge of by a benevolent blacksmith who placed her in the quarters where we saw her. Her own story is that she was hired by a man in Kentucky to work on a plantation which he had purchased down the river, and was on the road down when she was taken sick and put ashore, by his instructions, as above stated.

THE CHOLERA.

After our departure from Helena, Ark., I was informed by a gentleman who came on board our boat at that place, that the cholera was raging to a fearful extent in the town and immediate neighborhood. Sixteen cases had proven fatal the day before, and the malady was spreading rapidly. The disease has thus far been almost exclusively confined to the poorer class of negroes, who, owing to the overflow of the land, have been compelled to live on fish and such other matter as the flood brought to them. I have no doubt but that there will be considerable sickness all along the river, caused by the vast amount of decaying vegetable matter which has been deposited by the high water. Our passengers were mostly in ignorance of the existence of the disease anywhere near them.

POLITICAL.

My trip down the Ohio and Mississippi, and stopping at most of the principal towns and cities, has given me an opportunity to mingle with people of varied politics and ideas. I find a sameness about political matters which, when the extent of country traveled over is considered, is truly astonishing, and I am forced to believe that there is as little love for the United States, or anything belonging to them, as could be well imagined. There are exceptions to most rules, and I am pleased to be able to say that there are a few to this one. The exceptions, however, are the elderly men, who, while they neither believed in secession or assisted actively in the rebellion, but heartily wished the success of the South, are now willing to take advantage of whatever measure is offered which looks towards an early settlement of the difficulties between the two sections.

Opposed to them are the ex-rebel officers, disfranchised by the Military bill, and the politicians. There is nothing hidden about these men, when they feel themselves in a safe place. They condemn Yankees (which means the whole country) in the most vehement and bitter language, and from their manners I am led to believe, against my own inclination, that the murdering of Northern and Union men is not so much of a myth as their newspapers are inclined to make us believe. They curse the Military bill and the body that enacted it, as well as the people who elected the body, in the most bitter language, and from what they say themselves, there is little doubt left in my mind, but that instead of the feeling growing better, they will grow worse. I have talked with men from different sections or the South, and after mature deliberation, I venture this remark.

THE DELUGE.

A man to live and thrive in this country should be of an amphibious nature, and be born web-footed. I don't see how it is possible for a man to live along the banks of the Mississippi between Memphis and New Orleans, without being supplied with some kind of appendages that will enable him to navigate the water. The whole country is or has been submerged, and the damage done by the flood is beyond computation. The desolation is widespread, and there can be no doubt but that numbers of lives have been lost. Numbers of the cotton plantations, and nearly all the sugar plantations were under water as we passed, and it was no uncommon sight to see families whose houses had been submerged, and broken down by the violence of the flood, huddled together with their flock on a narrow strip of levee, with nothing to shelter them from the storm but a few boards, awaiting for the water to go down. How these people have managed to eke out an existence is beyond my comprehension.

THE WEATHER.

On the second day out from New Orleans we were again visited with a sample of that peculiarly disagreeable kind of weather which greeted us almost every day on our way down, and which followed us most of the way up the river. It has now cleared up, and is quite warm. The trees are putting forth their leaves and the peach trees are in full blossom.

We shall arrive at St Louis at an early hour on Friday morning.

Special Correspondence of Pittsburgh Commercial.
ON BOARD THE GREAT REPUBLIC, ST. LOUIS, MO., April 11, 1867.

This evening, which is the twenty-sixth since we left our moorings at Pittsburgh and steamed down the Ohio, has brought us all, safe and sound, to the end of our journey by water.

As we neared our destination, a marked change came over the spirits which had heretofore manifested the most lively disposition. There was no lack of joy or life among them, and yet there was a sort of indescribable feeling under all, which betokened the regret which was felt at our knowing that we were soon to part with many social companions, in whose company we had spent so many pleasant moments, and to leave behind us our gallant boat which had become like home to us. Everything wore an unsettled appearance, and all hands were busily engaged in packing up their traps and making preparations for the journey homeward. Everything about the boat appears to have become so closely allied to us, by constant association, that we part with it with feelings akin to those with which we part with an old friend. No longer are we to see the always cheerful faces, and hear the pleasing voices of Capt. Donaldson and his courteous *corps* of officers, or to hear the delightful and inspiring strains of the Republic's band. In future it shall be our lot to sit down amid peaceful quiet and take our meals, and retain but a recollection of the pleasant moments so profitably spent in an excursion from the headwaters of the Ohio to New Orleans, and thence back again to St. Louis, on the largest and most magnificent boat ever launched upon the Western waters—the Great Republic.

As I sit here, and write, what I suppose will be the last lines I shall have the pleasure of inditing from this boat, I feel in the rather melancholy language of Moore:

> "Like one who treads alone
> Some banquet hall deserted;
> Whose lights have fled,
> Whose garlands dead,
> And all but one departed."

But why lament thus:

> "It has ever been thus since childhood's hour,"

And I suppose will continue so to be, as long as the world stands and people permit themselves to love or like perishable commodities, such as steamboats, and such other uncertain things.

From the moment we arrived at Cairo, there was a change in everything on and about the boat. The dance was stopped for the nonce, and despite the efforts of those who tried, could not be again got in motion. The "folks" settled down in dusters and at a much earlier hour in the evening than was usual the saloon was empty; all had retired to rest. Even the machinery appeared to be affected, and we moved up the river at a rate which I feel sure must have astonished one of the boats which immediately followed us—the "Kilgour"—for when morning broke she was to be faintly descried in the distance. In other words, she started out with the evident intention of beating us, but was herself the victim.

After leaving the perfumed and mild air of the South, where naught save green fields and blooming trees met our eyes, our trip up the Mississippi has not been enjoyed with that relish which the grand scenery along the banks of the river would appear to demand. The air, as we move northward, grows colder and colder; we have gone to bed at night at the tropics and arose next morning at the north pole. This, together with our close proximity to our destination, no doubt had its influences. To those who did not view the scenery, let me here say, that they missed the grandest and most magnificent that we have had the pleasure of passing since we left our own native hills. Alternately, on each side of the river rose magnificent hills, dotted with pleasant and comfortable looking houses, while in many places gigantic ledges of white rocks jutted out from the river banks, and stood in striking comparison with the low part of the country which we had been passing for the past few days. The river here was low, and for the first time since we left Pittsburgh, excepting New Orleans, we saw clouds of dust whirled by the wind from off the sand bars, in clouds. This is rather an inconsiderable thing to call forth a line of remark but it is so odd a sight to us excursionists that I can't help giving it a notice. I recognize the fact that it rained about three-fourths of the time since our leaving Pittsburgh.

Numbers of the excursionists part company here. Quite a goodly number go home via Chicago; others will go direct, by way of Cincinnati, and others will remain over until Monday. By Wednesday next, I doubt not, all shall have reached their homes, fully satisfied with their journey.

Last, but not least: I have a word to say in regard to the Great Republic. She is a success. Her trip up from New Orleans has been made under very disadvantageous circumstances, and yet she has made a fair trip. Shortly after her leaving New Orleans, a derangement took place among her machinery, which was found irreparable without the aid of a machine shop. This, together with dark nights and fog, compelled her to lose considerable time, but with all she has made a very fair trip, having been six days on the journey. She has been received everywhere with the same marked attention and admiration, and the general verdict of all unprejudiced people is, that she is the finest and most elegant boat ever launched in the world. She will remain at this port a week or so, undergoing repairs to her machinery, and then will take her place as a regular liner between this port and New Orleans.

THE DAMAGE TO THE GREAT REPUBLIC.

The St. Louis correspondent of the Cincinnati *Commercial* says: The Great Republic arrived here last night, at 10 o'clock. The heaters and air-pumps, or condensing apparatus, an account of the repairs on which you copied some days ago from an Orleans paper, and which had detained her in that city considerably beyond the time she expected to remain, had been only repaired in a temporary manner, as it was found necessary to send to Pittsburgh, probably for some patterns, and the engineer intended to try to make the trip to St. Louis rather than detain the Republic in New Orleans. The repairs answered the purpose until the boat reached Donaldsonville, seventy-five miles above New Orleans, when the apparatus again became almost useless, and although partial repairs were again made at various times, the Republic has made the greater portion of the trip either on one wheel, or without the assistance of condensing apparatus, which of course very materially reduced her speed. With all this disadvantage, however, she has come to Cairo in five days, passing the P. W. Strader, J. C. Swan, and a host of smaller fry; and, during those five days, has discharged a large quantity of way freight at Natchez, Vicksburg, Lake Providence, Memphis and Hickman. She has 750 boxes oranges and lemons, 48 beer kegs, 1 horse, 1 buggy, 1 bale merchandise and 5 boxes for St. Louis, and is crowded with passengers. Her receipts for the trip from Pittsburgh to New Orleans, were $53,000. R.

TELEGRAPHIC SUMMARY.

A dispatch from Pottsville says: A fire damp explosion occurred at Bancroft's Ashland colliery, by which twelve miners were killed, among them John Matter, a well known cricket player.

It is expected the iron miners' strike in Morris and Sussex counties, New Jersey, will end this week, as the men in many cases were resolved on resuming work at the old wages.

Sixty miles of the Evansville, Henderson and Nashville Railroad have been graded, extending to the coal mines in Hopkins county. Nearly seven hundred thousand dollars have been subscribed, and Evansville will furnish $300,000 more.

Governor Brownlow has issued a proclamation declaring the registration of voters in eight counties in Tennessee null and void.

All the distilleries in East Tennessee are to be closed by the Government.

The public income realized from internal revenue sources Saturday was $383,800. The receipts for the past week were over two and a third millions, which swells the grand total for this much of the present fiscal year to nearly two hundred and twenty-three millions.

Governor Jenkins, of Georgia, has written an address to the people of that State, advising non-action under the Sherman bill until its legality is tested before the Supreme Court. He considers the law unconstitutional, and hopes the court will so decide.

A PARIS letter by the last steamer says: The Emperor is said to be exceedingly disgusted at the backwardness of all the work upon the grounds and in the building, and everybody connected with the affair seems to be in an ill humor. Exhibitors are disgusted because their places are not ready for them, and many express very little confidence in the justice of the awards of the juries, which they assert have been very essentially "packed," and I have heard it positively asserted that "medals" can be had for a fair equivalent. Still this is probably the result of jealousy on the part of unsuccessful exhibitors.

THE French General Trochu enters into an elaborate analysis of the military power of France, and concludes thus: If we suppose the pre-existence of the solid elements of constitution and organization which I have already enumerated, (good finances, special corps prepared, arsenals, well supplied, depots fit for use) we arrive at this result: That France can easily and effectively form five armies of more than one hundred thousand men each.

Critical Affairs in Europe.

Important dispatches are looked for by the State Department in the Asia's mails, via Halifax. The situation of affairs in Europe is regarded as critical in official circles here.

Registration in New Orleans.

A telegram from an official source from New Orleans says that four boards of registration, under supervision of United States officers, are to be appointed at once to register the vote of that city. Similar boards are to be appointed throughout the State as soon as possible, but the present registration is for the purpose of having an election to fill existing vacancies in municipal offices.

WASHINGTON, April 13.

SOLDIERS' NATIONAL ASYLUM.

At a meeting of the Managers of the National Asylum, yesterday, quite a spirited contest was had over the location of the Central Asylum. The Board was unanimous that it should be located in Ohio, but the contest was between Dayton and White Sulphur Springs. A committee, which visited Ohio, reported in favor of Dayton, but the low price at which the Springs property was offered made it friends. It was finally decided that the White Sulphur Springs property be purchased, provided the Columbus & Cleveland road would, at its own cost, extend its line to the Springs, and run daily passenger trains there, or if the company refuse, the Executive Committee is instructed to purchase the lands west of Dayton, provided the citizens donate twenty thousand dollars toward the purchase. The transfer of the Ohio Soldiers' Home to the National Asylum was ratified, and the thanks of the Board returned to the Legislature of Ohio therefor. The following officers were elected for the Ohio Asylum: Deputy Governor, Captain J. E. Racy, of Ohio; Chaplain, Rev. Henry Hill, New Hampshire; Surgeon, Dr. C. McDermont, Ohio; Steward, A. P. Woodruff, of Illinois. The National Asylum cared for or assisted 1,000 disabled soldiers last year, and proposes to care for or help at home twice that number next year.

RAID ON GAMBLERS.

Last night, by a preconcerted movement, the police made a descent upon the prominent gambling houses on Pennsylvania avenue and elsewhere. As these establishments have heretofore enjoyed an almost uninterrupted immunity, it was to their proprietors a startling event. All the materials and mechanical contrivances for playing faro and other games were captured, and the occupants of the houses were taken into custody, but afterwards released on bail. The keepers of similar places having received a brief warning of what was going on at other places, bolted their doors against all comers, police included.

REGISTRY OF VOTERS.

The number of voters registered in the First, Second, Third, and Fourth wards of this city is 8,958, of whom, 4,406 are white, and 4,552 colored, which gives the latter a majority of only 156 in these wards. The registration in the other three wards will be commenced to morrow.

Collections continue to be taken up in the churches and elsewhere for the relief of the South. The subscriptions are liberal. An extensive fair is to be held for the same purpose.

THE NEW ERA.

Mass Meeting of Freedmen in Augusta, Ga.—Resolutions Adopted Favoring the Republican Party—Speeches by Gov. Johnson and Others.

AUGUSTA, GA., April 13.—At a mass meeting of freedmen to-day, about 1,000 were present. Resolutions were read, the substance of which was as follows: That the loyal citizens of Georgia should give their united and cordial support to the Union and Republican party; that there should be no distinction on account of race or color in the enjoyment of political rights; that the right to vote gives the right to sit as jurors; that corporeal punishment should be abolished, being a relic of barbarism; that the widows and orphans of those who died in crushing the rebellion are entitled to the nation's protection and gratitude; that the national debt is a sacred obligation.

J. L. Shipton, colored, spoke in support of the resolutions, but his remarks were conservative.

Governor Johnson understood the object of the meeting to be for the purpose of advising and consulting with the colored people in order to form a common platform on which white and black could secure equal justice before the law, and work in harmony together. He was surprised to find the meeting called merely for party purposes. He therefore spoke reluctantly and under disadvantages. Had he known the programme had been previously arranged, he would not have been present. Having been politely invited, however, he did not feel able to decline. He spoke not for the purpose of defeating the object of the resolutions, but advising the best interests of the colored race. He advised them to be sober and industrious, and exercise the right of franchise judiciously; to avoid wicked and designing men who are in our midst to sow discord and strife. He believed the good and intelligent white men of the South would do justice to the negroes. He would do all in his power to improve the race in the social and political scale. There is and should be no antagonism between the races; their interests are the same, and there should be mutual confidence and harmony. He earnestly hoped both races would be friends and co-laborers in working out the great problem of regenerating the South.

Judges Storrs and Hilyard followed, and were in favor of harmony and good feeling.

Simeon Beards and other colored speakers favored the Republican party, and the passing of resolutions supporting that party. The preamble and resolutions were adopted.

UNITED STATES SENATE.

After Gov. Cummings Again—Pay of Pages, &c.

WASHINGTON, April 12, 1867.

On motion of Mr. RAMSEY, 500 copies of the tenure of office bill were ordered printed.

A resolution was adopted to pay clerks of committees and pages employed during the present special session, and such other attendants as are paid by the day, the usual per diem compensation.

The Senate passed Mr. THAYER'S resolution calling on the President for information relative to Gov. Cummings's reported absences from Colorado territory; whether with or without leave, the time paid, &c.

On motion of Mr. FRELINGHUYSEN, the Senate went into Executive session.

Cows Burned.

ST. LOUIS, April 14.—The cow stable belonging to John Wilder, on the western outskirts of the city, was burned last night. Forty-four cows perished in the flames. The fire was the work of an incendiary.

The Forthcoming Scull Race—Arrival of Walter Brown.

The sculling contest between James Hamill, of this city, and Walter Brown, of Portland, Maine, for a purse of two thousand dollars and the championship of America, which is arranged to take place over the Monongahela course on the 21st of next month, promises to be the event of the season. Mr. Brown arrived in this city yesterday in the noon train, in company with his trainer, Mr. John Shea, of Boston, and is stopping at the Monongahela House. During the afternoon he was waited upon by Mr. Hamill, who accorded him a hearty welcome, and escorted him through the city. He also visited Mr. Hamill's boat house, and inspected the boats owned by the Champion. It is Mr. Brown's intention to go into training at once. He brought with him his fine racing boat, and deposited it temporarily in the billiard room connected with the hotel, where it was visited by a large number of persons. The boat was built by Mr. Elliott, of Green Point, New York. It is constructed of cedar, highly polished, is thirty-one feet long, thirteen and a half inches wide, and weighs thirty-seven pounds. It is understood that Mr. Brown will be the guest of the McKee Boat Club during his stay in this city.

STOLEN MONEY RECOVERED.—The ten thousand dollars stolen from the Adams Express Company's Messenger, on the steamboat Elisha Bennett, between Pittsburgh and Greensboro', on the night of the 5th of April, has been recovered through the Detective Agency of Allan Pinkerton, of Chicago. The guilty parties will be speedily brought to justice.

SOUTHWEST

PACIFIC RAILROAD CO.,

SEVEN PER CENT.

First Mortgage Bonds.

$2,000,000 in Coupon Bonds of $1,000 Each,

TWENTY YEARS TO RUN,

Principal and Interest Guaranteed by the Atlantic and Pacific Railroad Company,

And secured by property valued at $7,500,000, consisting of their completed road to the Gasconade river, 125 miles from St. Louis, and 350,000 Acres of Rich Agricultural and Mineral Lands on its line.

This road passes through a country rich in agricultural resources and in minerals, and particularly so in iron and lead; the iron ore of the Southwest Missouri being the purest known, ranging from 60 to 90 per cent. of pure iron. Rich and extensive deposits of specular oxide and red and brown hematites abound all along the line of the road and on the Company's lands in greater quantities than the total iron deposit of any State in the Union, and a large business is now being inaugurated in freighting iron ore for the Eastern furnaces, the vast excess in yield of this over other ores paying the difference in cost of transportation.

By a provision of the mortgage, when lands are sold to the amount of $10,000, it is to constitute a fund for the redemption of a like amount of bonds, which are also received by the Company at PAR in payment for land. This land is now being disposed of at rates from $5 to $46 per acre. The climate is remarkably salubrious, and the mean temperature the same as in Virginia, the winter being short and mild. For particulars respecting lands, address Colonel A. ALBERT, Land Agent, at St. Louis, Mo.

The Company has been recently merged with the Atlantic and Pacific Railroad Company, having a land grant of 55,000,000 of acres, thereby adding to the fullest to the security of these bonds.

The road of the latter Company, when completed, will form a direct and continuous railway from St. Louis to San Francisco, much shorter and of vastly easier gradients than any other much route.

Of the present issue of bonds, a limited amount is now offered for sale at the low rate of 80 per cent., subject to advance at the option of the Company.

WE have received a number of communications on the Consolidation Question which we shall publish as soon as we find room for them.

IT seems to be pretty well understood that there will be no injunction on Reconstruction, but that the Supreme Court will decide adversely to the application early in the present week.

THE comments by the London *Times* and *News*, on the cession of Russian America to the United States, display anything but a quiet mind. England would protest, we are told, if it had a right to do so, and no attempt is made to disguise the importance of the transaction. The language of these two leading journals discloses the dissatisfaction that exists in the English mind—a feeling that experiences no relief from the fact that it would be utterly useless to make a display of it.

THE suspicion that a secret treaty has been entered into between Prussia and Russia is gaining strength in the best informed European circles. This fact, it is believed, is at the bottom of BISMARCK's note to NAPOLEON. There are other grounds for this suspicion. It is known that the Prussian Minister at St. Petersburg has received important instructions; and sundry intimations by BISMARCK are construed into a significant confirmation of this view. Such an alliance would have a look offensive not only to France but to England also; since it would contemplate the future of Turkey and the avenging of Sebastopol Such an understanding would put England and France to the test. While the former finds in the arrogance of BISMARCK towards NAPOLEON enough to chuckle over, the idea of an alliance between Prussia and Russia, with designs on the "sick man," excites in the English mind quite another feeling. Added to this, we have the remarkable assurance that Austria, in the hour of danger, will stand by Germany. What next shall we hear of BISMARCK's combinations?

THE *Nation* takes up the case of Mr. BARNUM—the successful showman and defeated Congressional candidate—to express some good ideas about the duty of respectable people when candidates are set up that are not respectable. It is useless, it says, to talk about the remedy being in attending primary meetings; there are ten thousand reasons why they will not; and if they did, we will add, the chances are they would be out-generaled by the professional wire-pullers.

Primary meetings and party caucuses, as they are conducted now-days, are not the places where decent men in general want to go; nor, as we have said, is it likely they would control results if they did go there. But there is one way they can effect results and produce reform in primary politics. We mean they can, in a body, and at all times, refuse to vote for an improper candidate; and by carrying their action a little farther, they can insure the utter failure of the nicest plans ever laid in caucus. When once it becomes understood where a party nominates an unfit man for any station, there will surely be found enough decent men to take a stand that will insure certain defeat, our primary meetings will become affairs altogether different from what they now are, and we shall have candidates that may be safely elected. It may cost something at the outset, but the investment would prove to be a good one right speedily.

A SLEEPY SENTINEL.

We are highly gratified to discover that Philadelphia has all along taken a profound interest in the Railroad questions that have been before the Legislature during the past session. The *Gazette*, of that city, has had, no doubt in common with the rest of the press, the warmest sympathy with the people of the State on this subject, and it appeals to the *Legislature, supporting* its appeal by weighty and numerous reasons, to pass the Free Railroad bill, as introduced by Mr. BIGHAM. It pronounces the bill that was passed, an emasculated one and "wor e than useless," and praises Governor GEARY for vetoing it. And it gives the Legislature a strong dose of menace, which will send the thoughts of any of them who may think of making the venture for a reelection forward rather apprehensively to the fall campaign. The *Gazette* is strong in its expostulations with the Legislature. It tells members that they are mistaken, if they suppose the interests of Philadelphia are favored by the maintenance of a *chartist policy* in regard to the building of railways through the interior, and adds the following:

"We can assure them, on behalf of the capitalists, merchants, and the majority of the railway corporations of this city, who one and all desire nothing so much as the free scope this proposed genuine free railroad law would afford for the development of the immense resources of the commonwealth, Philadelphia, now more than ever, feels that her own interests are inseparably identified with those of the great State of which she has ever been so proud to be the emporium and metropolis."

This is beautiful. But the funny thing about it is, that this forcible and clear utterance of the *Gazette* was not made till the Legislature had adjourned. The article would not have reached Harrisburg till the body was, at least, engrossed with the usual festivities of adjournment day—a sort of Legislative Harvest-home scene, it appears to have been. It was too late to listen to the Editors' excellent reasons for a Free Railroad Law, or to go back to their seats and pass it. But the members who have all winter opposed it will probably, on their return home, take time to reflect on what the *Gazette* tells them, that they have done a wrong to the city of Philadelphia, that they have disregarded the manifest will of the people of the State, and it is added—in irony we imagine—that they have done an "act of injustice to the Pennsylvania Railroad, to impose on it the gigantic task of building all the Railways that may be needed in the interior." The Philadelphia members who voted steadily against the Free Railroad law, will no doubt take the hint given about their blunder in relation to the interests of that city.

We did not think Philadelphia was so far from Pittsburgh that it should take months for the echo of the universal sentiment here to be given back there. The excellent logic of the *Gazette* pitched at the Legislature on its retreat from its Harrisburg campaign, has been made familiar to every body on the western slope of the Alleghenies, through the COMMERCIAL and the other journals. We have appealed to the Legislature, and with all the pungency we could impart to it, especially to the Philadelphia members, to desist from their opposition, and to pass the honest and proper bill. Had the journals of Philadelphia and the East, instead of looking on the contest almost in indifference, joined us in endeavors to get proper legislation, the Free Railroad bill might have been passed by the Legislature. The movement was in that direction, even without their aid, as the vote in the House that passed the bill and the increased vote for it in the Senate prove. The article of the *Gazette* to which we have referred, is a condensed and strong statement of our oft repeated utterances, during the session. But why was its publication delayed till the Legislature was virtually adjourned?

THAT bit of land in the Northwest which Mr. SEWARD lately bought of the Czar, has suddenly become famous. However bleak and barren it may be, no one can deny that it has produced a rank and luxuriant crop of newspaper articles. Esquimaux vanity would be delighted, did it know the many fine things said of the land of its birth and abode, of its stately points, its productive soil, its genial climate, its well filled rivers and seas. But then its other ear would burn, if it could hear the expressions of contempt and depreciation, of ridicule and censure, which the land and its purchase have called forth in other quarters. It is always so. California was a laughing stock in our own times, and so was Oregon. New England, and the Virginia plantations had their days of clouds and contempt. And Yankee shrewdness, we venture to predict, will make something out of this new purchase, that is yet without a name. If half of what is spoken in its favor, and not more than half of that spoken in disparagement be true, it is worth all that was given for it. It will soon cease to be a *terra incognita*. Exploration will ere long dissipate doubt and uncertainty of its character.

THE late "Conservative" meeting in Chattanooga, composed of one hundred blacks and three hundred whites, by whom resolutions denouncing BROWNLOW, the radical candidate for Governor, were adopted, was a notable variation in the current of general politics in the South. Though not very important in itself, it goes to show that as there were colored people on the side of the rebellion, so in settling the question growing out of it, there are those who side with those who resist the revolution it inaugurated. That the newly enfranchised population will be a perfect unit cannot reasonably be expected. Considering everything, and especially the character of the influence brought into play to win them to the cause of the South, the only wonder is that more of them are not found yielding to it.

THE *Tribune, Times* and other leading New York journals are denouncing the legislature of that State for the extent and utter shamelessness of the corruption which has characterized the present session. In view of what is said and known the inquiry is forced on us—how is it to be explained that men of fair standing at home so suddenly become corrupt when they go to the legislature? In New York they say the lawyers are most numerous in legislative bodies, but the testimony is that gentlemen from the rural districts, classed as farmers, have the easiest virtue and are the most greedy to make money corruptly. We believe this as a rule holds good elsewhere, and it is one of the puzzling things connected with experience in such matters.

OUR IMPORTS.

The import entries for March, 1867, at New York, compare as follows with the corresponding month of the previous year, viz:

	March, 1867.	March, 1866.
Dutiable goods, direct	$11,373,974	$15,200,809
Dutiable bonded	9,069,756	9,539,100

Total March entries	$21,367,107	$25,919,086

There was also entered during the month foreign specie to the value of $145,867, as against $285,854 same month in 1866. The value of foreign merchandise of previous importation withdrawn from bond $13,318,411, or $4,248,655 more than went into bond during the month, so that the amount of merchandise actually marketed during the month, dutiable and free, is $25,615,762, on which the gold customs collected amount to $11,977,418, or at an average rate of duty on all the marketed imports (including free articles) of 46¾ per cent. The amount marketed in March, 1866, was $24,224,630, and the customs $11,173,154.

The comparative value of foreign goods entered at the port of New York, and of foreign goods actually marketed during the nine months of the fiscal years 1867 and 1866 were as follows:

	1866–7. July 1, to March 31.	1865–6. July 1, to March 31.
Total entries	$202,526,175	$228,135,419
Total marketed	$204,091,811	$212,631,132
Customs paid	93,447,657	100,686,231
Average	45¾ ₱ cent.	46¾ ₱ cent.

In addition to the above there was entered of foreign specie, during the nine months of the fiscal year 1867, $8,806,920, against $1,602,205 for the same period in 1866.

The actual monthly consumption (or values marketed) of Foreign Merchandise at New York in 1866 and 1867 will compare as follows:

FOREIGN GOODS MARKETED AT NEW YORK.

	1866–7. July 1 to Feb. 28.	1865–6. July 1 to Feb. 18.

Relief for the South.

To-day a meeting will be held for the purpose of devising means for the relief of the famine-stricken people in the Southern States. That they have been in grievous error and wrong, that they have occupied formerly the position of enemies to us and to what we hold in political interests most sacred, does not make any difference in the claims that humanity and christian charity have on us now. They are in want, they are dying through famine. Men, not only are destitute of food, but women and children feel the cravings of hunger and have no bread to satisfy or even to assuage them. It is true, that breadstuffs are dear, but there is no approximation to want or scarcity among us. We hope the efforts to-day will be energetic, united, liberal. In a case of this kind promptitude in supplying food is a primary virtue of charity.

STRIKES ENDED.—The strike in the Lehigh region, that has so long existed, has at last terminated, the men acceding to the reduction of wages, and active operations will at once be commenced. In the Schuylkill region new strikes have occurred at some collieries, during this week, while at others that have been idle for some time past operations have been recommenced.

THE Philadelpia *Inquirer* hopes the wholesale character of the gift demonstrations by members at the close of the legislative session is not to be considered a precedent. If the members choose to make the subordinate officers presents, well and good, it is only the business of the parties concerned—but a public display of miscellaneous merchandise in the halls of the Legislature, and making their presentation a part of the public business, is not in very good taste. Hereafter, such scenes had better take place at the hotels, after adjournment, where they would be entirely in order.

SOME have argued that the expectation of war would seriously interfere with the tide of immigration, but a letter by the last steamer avers that the reverse will be the effect, and that an impulse will be given that will turn the tide into a perfect exodus, and this movement is even more observable among the well-to-do classes of the agricultural population than among the very poor. Increase of intelligence and education does not increase the disposition for fighting.

BUSINESS OF THE LEGISLATURE.—The Pennsylvania Legislature, during its session of sixty working days, possed one thousand six hundred and fifty-two bills and sixteen joint resolutions, one thousand two hundred and eighty-six of which had been signed by the Governor up to Thursday night. The Legislature, therefore, put upon the statute books laws at the rate of nearly twenty-eight per day.

THE bill passed by the New York Legislature allowing the Central Railroad Company to increase its fare, has been vetoed by Governor Fenton, who is luxurating under the wrathful resentments he has brought down upon his officials—and personal—head. The Central management say they were assured by those who claimed to speak for the Governor that he would sign the bill.

THE leading journals of the country refer to the passage by the legislatures of our consolidation bill with decided interest, and in every instance speak of the advantages to flow to us from the proposed union. It is conceded that consolidated Pittsburgh would at once take its rank among the principal inland cities of the country.

FURTHER IRON INVESTMENTS.—The Sharon, Mercer county, *Herald* says: "The erection of two new furnaces at Sharpsville, was on the summer's programme, but the present aspect of the iron business renders it doubtful whether the work will go on or not. The furnaces throughout the country must blow out soon unless the mills can be set in operation."

BOTH parties in Canada have adopted the caucus system which is such a distinguishing feature in American politics.

PERSONAL.

—The Prelate who arrived by the Great Eastern is the Bishop of Iona, and is in no way connected with the Protestant Episcopal Church, but has been consecrated by one of the branches of the Orthodox Eastern Church, as the first Bishop of a Western branch of the same. The Catholic, Apostolic and Orthodox Church of the West is in all respects one in faith with her Eastern sister, but is independent from her jurisdiction, and has a much simpler Liturgy. We understand that the Bishop of Iona is visiting this country with a view to forward the interests of his Church, whose principles are summarily stated as embracing the old Catholic creed, simple forms of worship, prayers in the national tongue, and the Bible given to the people.

—We suppose the largest price ever paid for a course of popular lectures in this country, if not in any other country, was received by Prof. Agassiz for his recent course in New York on the natural history of Brazil, delivered under the auspices of the Association for the Advancement of Science. The price demanded by, and paid to him, was five hundred dollars for each lecture, or three thousand dollars for the course of six lectures. Taking the time he devoted to each lecture—that is to say an average of one hour and forty minutes, it thus appears that he received five dollars a minute for every minute he spoke—which is a salary equal to that of an ordinary Emperor. The Association which engaged his services did not lose by the operation, but on the contrary received a very handsome surplus for its treasury. Mr. Bancroft says the audiences were the largest he ever knew in attendance upon any scientific lectures.

—Major George L. Stearns, long an enterprising Boston merchant and a prominent friend of liberal principles, died last week, of congestion of the lungs, after an illness of less than a week, aged sixty years or over. He was the head of the firm of George L. Stearns & Co., (W. J. Bride,) of 129 Milk street, one of the heaviest houses in New England in the lead and patent pipe business. Major Stearns will be remembered for his philanthropic efforts, and his labors to keep President Johnson on the right track.

—The counsel of Captain Wirz, who was executed for alleged cruelties at Andersonville, has just published a statement to prove the innocence of his client, and says that the night before the execution a messenger from a high cabinet officer came to him with the offer that if Wirz would implicate Mr. Davis in the crimes charged against him, his sentence would be commuted. He adds that the offer was made to Wirz, and declined by him.

—A Washington correspondent of the New York *Gazette* remarks: "General Butler's only child, Miss Blanche Butler, will be the Congressional belle at the next session. She is decidedly pretty, very graceful, very clever, and is claimed by the good Sisters of the Visitation at Georgetown as one of their most accomplished graduates."

—In the liquor law investigation in Boston, Mr. C. A. Richards, a liquor dealer, was called to testify. When his attention was called to the law, and he was asked how he could justify himself as a professedly good citizen, in daily violating it—"In the same way, I suppose (he replied) as the judges, lawyers and clergymen justify themselves for daily tempting me to violate it."

—According to the last news the Liberians were on the eve of an election for President. The candidates were Rev. Edward J. Roye, a native of Ohio, and now Chief Justice of the Supreme Court of Liberia, and Rev. James S. Payne, one of the ablest and most eloquent divines of the Methodist Episcopal denomination. The election takes place on the first Monday in May.

—Lord Montague informs the House of Commons that the Rinderpest has broken out among the cattle of Cornwall, and Professor Simonds has been dispatched to allay the disease, if possible. Our authorities cannot exercise too much care and labor in preventing the introduction of this dire epidemic into this country.

—Mr. John M. Lawrence, of Cortland, N. Y., has received a telegram from parties in Canada informing him that he had fallen heir to an estate in England valued at $600,000. Mr. Lawrence is an amiable young man in very humble circumstances, so humble that, in a suit of his in court at the last term, he obtained leave to prosecute as a poor person, unable to give the usual security for costs.

—The Cleveland *Herald* says there is a very flattering expression of public opinion favoring the nomination of ex-Gov. Tod as the Gubernatorial candidate, by the Union Republican party, for the approaching election.

—A singular statement is going the rounds that not long since an American artist wrote to Mr. Ruskin for advice upon the subject of art. The eminent English critic, who doubtless has had ten readers in the Northern States for one in any other part of the world, replied in a manner that seriously tries our confidence in his judgment and sincerity. The barbarous manner in which the people of the North, he wrote, had conducted the war upon the Southern people and their patriarchal institutions had utterly destroyed his interest in American art. True art, in fact, could not flourish among a people so depraved; and he therefore advised his friend to abandon all effort to tread the true path in art, and to confine himself to painting such pictures as were suited to the degraded taste of the Northern Americans.

WHENEVER YOU ARE DYSPEPTIC.

For Cholera Morbus and Dysentery, and for the speedy cure of any kind of disorder that originates or proceeds from a disordered state of the Stomach or Bowels.

Give ear, all ye people, 'tis truthful and sure,
No medicine equals Coe's World Dyspepsia Cure,
Indigestion and Dyspepsia yield at once to its power,
Sick headache, sick stomach in less than an hour.

Debilitated, weakened, no appetite, no life,
No desire to labor in the world's busy strife,
Your food distressing you every time you eat,
I bid you be of "good cheer," for "I bring relief."

We promise you all, 'pon our honor, our name,
To cure the worst of cases or forfeit price and fame;
No case of Dyspepsia was ever known to endure,
When grappled and seized by Coe's Dyspepsia Cure.

MISHLER'S

HERB BITTERS,

THE

GREAT DYSPEPSIA CURE.

We have received the following communication from Capt. EDWARD DUFF, of East Liberty, bearing strong testimony to the great virtues of MISHLER'S HERB BITTERS, as a remedy for DYSPEPSIA AND INDIGESTION.

EAST LIBERTY, March 25, 1867.

MESSRS. FAHNESTOCK & HOLTON—

Gentlemen: I write to add my testimony to that of thousands of others as to the merits of MISHLER'S HERB BITTERS, that the sick and afflicted may have the benefit of my experience with your *Invaluable Medicine*. For many years I have been suffering with the very worst form of Indigestion and Dyspepsia. Only those who have been afflicted as I have know the trouble, pain and misery I endured. After suffering a number of years, I was induced to try your MISHLER'S HERB BITTERS. The use of but a small quantity of this most excellent Medicine has effected a radical cure in my case, and I here take occasion to recommend its use to all persons similarly affected. I am much pleased to see that we are to have a Branch House for the sale of this remedy in Pittsburgh.

Hoping that MISHLER'S HERB BITTERS will meet with that approbation and extended sale their great merits entitle them, and that thousands upon thousands of our suffering fellow creatures may be healed, as I have been, through their extraordinary virtue and curative powers, I am truly, yours,
EDWARD DUFF.

NOTICE—TO THE BONDHOLDERS OF THE ERIE CANAL COMPANY.—By an act approved March 15th, 1867, the Erie Canal Company is authorized to enlarge their canal to such size as they may deem expedient.

The Act authorizes the increase of the capital stock to $1,500,000, and authorizes the Company to receive in payment for subscriptions to stock any bonds, judgments or other indebtedness of the company. The act further provides that "When the present indebtedness of the company or three-fourths of the same shall have been converted into capital stock, the said company is hereby authorized to execute a mortgage of the said canal, its rights, privileges and franchises to their trustees, and issue coupon or other bonds to the amount of one million of dollars, bearing seven per centum interest per annum and not running over forty years, and secured by the mortgage aforesaid, to be expended by the said trustees under the direction of the Board of Directors in the enlargement of the said canal, and with power to sell said bonds at such prices as the Directors may deem expedient."

The company proposes to enlarge the canal to pass boats of from 200 to 250 tons burden, as as there can be little doubt of the canal, when enlarged, paying the interest on its present debt and stock, in addition to the interest on the new bonds, it is hoped the Bondholders will promptly convert their bonds into stock, to enable the company to proceed at once to make arrangements for enlarging. The stock books of the company will be open for the conversion of the present bonds into stock, on and after the FIRST DAY OF MAY, 1867.

By order of the Board.
A. H. CAUGHEY, Secretary.

ROBIN'S RETURN.

There's not a green blade yet
 Whereupon a breeze could play
The bare brown earth is wet
 With the rain of yesterday;
But out on the apple bough
 A sound more sweet than rain!
Hark to the overflow,—
 Robin's come again.

Snow on the mountain side,
 Never a leaf on tree,
Never a spray to hide
 A nook where a nest may be;
Only a hint, 'tis true,
 That hope is not in vain,
A sky more soft and blue,—
 Robin's come again.

O, Robin, he can sing
 Where not a flower can thrive;
Musician of the spring,
 The blithest thing alive;
The March winds softlier blow
 Over the dreary plain,
A sunnier day or so,—
 Robin's come again.

The while he caroleth,
 Our hearts are lighter grown,
We almost feel the breath
 Of violets new-blown;
He sings the songs we knew,
 The earliest, gladdest strain;
Oh, old friends are the true,—
 Robin's come again.

—*Springfield Republican.*

GENERAL INTELLIGENCE.

Accounts from Montana give assurance of the great richness of the gold mines and success attending operations. The shipments from St. Louis to the mountain regions will fall considerably below last year.

The consolidation of the Western and Boston and Worcester railroads now seems likely to be speedily and amicably brought about. The bill before the Legislature concerning it has been remodeled, the Boston and Worcester Road has withdrawn its opposition, and it will probably speedily pass both houses.

During the celebration at Richmond of the surrender of Lee's army, a few nights since, a colored orator named Fuller said "he had no use for any white man who did not want him or any other colored man to marry his daughter." Thereupon two impulsive Union girls, Miss Carrinnton and Miss Van Lew, made their way through the crowd and shook hands with the speaker in token of their approval of his lofty sentiments. The affair creates much excitement in white society at Richmond, as well it may.

A Springfield dispatch announces the arrival at Springfield of 20,000 pounds of beet sugar from Chattsworth, Illinois. Nearly 100,000 pounds of this sugar has been manufactured at Chattsworth during the past season, under exceedingly unfavorable circumstances.

A distiller named Freninger, operating at Rock Island, has been cheating the Government to a large extent, by shipping whisky to Chicago and other points at night and on Sundays, during the absence of the Inspector. It has been ascertained that twenty-nine thousand gallons, valued at fifty-eight thousand dollars, were clandestinely disposed of in this way. He has been overhauled by a Treasury Department agent.

Under orders from Washington, two revenue inspectors have arrived at Nashville for the purpose of stopping all distilleries in that section. A greater service could not be done than by making the action universal.

At a fire in Cincinnati the other night a vast amount of whisky flowed into the river; mingling with the water, it got into the reservoir and thence into the pipes, so that all the city had grog free. Says the *Gazette:* Never was there so much grog mixed in one day, and it would have been a grand time for those who do not believe in surprising their stomach with water unmixed with whisky, but for the fact that the proportion of water thrown in was above the standard, and the grog was weak.

At Junction City, Kansas, on the 8th inst., a man named William Moore, while seated at the breakfast table with his wife and children, drew a revolver and shot his wife dead. In about two hours after shooting his wife, he obtained a pillow, laid his wife's head upon it, laid down on the floor beside her, and deliberately shot himself through the head with the revolver, and died in a few minutes.

The Jews of Chicago have held a meeting to denounce the insurance companies which make discrimination against them because they are Jews. Resolutions were passed not to patronize the companies which make this discrination, nor give any business to agents who have the obnoxious companies on their lists.

The loss by the burning in Cincinnati of Coote, Nash & Co.'s distillery exceeds $300,000. The insurance amounts to $146,000, only one-third of which falls on local companies.

The third semi-annual Convention of General Freight Agents was held last week in Cincinnati. The Convention adopted a resolution affirming their position not to grant return passes to drovers under any circumstances.

General trade in New York is more active than it was, though that is not saying much. The hardware, drugs and medicine and boot and shoe dealers are executing considerable orders on Southern and Southwestern account. The West as yet lags behind, while from the East and the Canadas there are but few buyers.

On Thursday the Great Eastern had about 150 passengers thus far engaged, but she will probably double or treble that number before she sails on Tuesday next. (She would accommodate 3,000, if need be.) No more visitors are permitted on board—a great disappointment to people who are coming from the country, in excursion parties, expressly to see her.

The London *Times*, in another powerful article, on March 29th, urges the English Government to pay the Alabama claims, and says that the cause of difficulty between Great Britain and the United States should long since have been removed.

Counterfeit five cent pieces are plenty. The only perceptible difference between them and the genuine is the omission of the rays between the stars surrounding the figure 5. They appear to be made of as good metal as the genuine, probably because the counterfeiters could find no other metal.

The receipts for the Ristori entertainment in Cleveland were $3,109 50, which is the largest amount of money ever taken at the box office of the Academy for a single performance.

A schooner has reached Cleveland from the Canada side. At Buffalo the prospect is that navigation will open about the first of May.

A very decided ill feeling is growing up among the poorer classes of Paris, and particularly among the laboring population, arising from the enormous augmentation in the prices of all the ordinary articles of consumption, attributable in general to the expensive improvements making in Paris, and in particular to the near approach of the opening of the Exhibition. It is well known to be the policy of the Emperor, so far as domestic affairs are concerned, to keep Paris contented and tranquil, with the firm faith that the provinces will act with it. And Paris is regarded by him as the great central heart of the nation, whose pulsations are felt in its remotest extremities.

A sermon was preached in New York, on Sunday last, by the Rev. Mr. Blanchard, on the subject of amusements, during which he stated that a man needed recreation in order to develop his spiritual nature, and that it was better for the church to take charge of these recreations than for the devil to have them in his hands.

When the State Constables called at a saloon in Westfield, Massachusetts, the other day, the proprietor slipped the chain from a large black bear which he keeps, and retired to an anteroom to await results. The officers opened the door and the bear courteously advanced to give them a friendly embrace. The door was quickly shut again, and no sign of a constable has been seen around the place since.

The journals of Itally are calling the attention of the government to the immense number of emigrants constantly leaving that country for South America, and complain that during the last levy for the army not a single individual capable of bearing arms was found in some of the towns.

The Ohio Legislature on the 10th appropriated $5,000 towards building a monument to the late General McPherson, one of the noblest and best of American heroes. The Copperheads characteristically voted against the appropriation.

CITY MATTERS.

The Widows' Home.

About a year ago, the ladies of the Allegheny Relief Association inaugurated measures to procure a lot and buildings suitable for a Widows' Home. An appeal was made to the public, and an act of incorporation obtained from the Legislature.

A committee of the following persons was appointed to make necessary arrangements, to collect funds, and to purchase property:

J. R. Brunot, Esq.,	Mrs. Gen. Robinson,
Jas. Marshall, Esq.,	Mrs. F. R. Brunot,
James Park, Jr., Esq.,	Mrs. Dr. Trevor,
Alex. Nimick, Esq.,	Mrs. R. D. Thompson,
Allen Kramer, Esq.,	Mrs. J. F. McLaren.

During the summer the committee purchased the old Orphans' Asylum, which was about to be vacated, for the sum of $15,000, which sum has been subscribed.

The property is held by the Allegheny Widows' Home Association, which is composed of the Relief Society, and the institution is managed by an executive committee of nine ladies, of whom not more than one-third are to be members of the same religious denomination.

The object is to provide a home at a merely nominal rent, which shall be enough to pay contingent expenses, for such poor persons of the protestant faith as are unable to pay an ordinary rent, giving the preference to widows with young children.

To those who have generously contributed to this charity, the committee would report, that the Home is occupied by a large number of grateful inmates. Some are very old. Their days of labor are over. They pray and wait for a better *Home*. But the large proportion are widows, some the widows of soldiers, struggling to feed and clothe their little ones.

One who has three children of her own, has a school of eighteen, for each of whom she receives a dollar a month. She teaches the children living in the Home gratuitously, and has her school room free of rent. A number are obliged to be out all day at work, and in this way their children are protected and taught. There is also a Sunday school, and prayer meeting in the building, and it is hoped that religious influences are thrown around the children here, which will save them from the contaminating influences to which, from their poverty, they might otherwise be exposed.

The institution being local in its design, the subscription book was only offered to citizens of Allegheny. In publishing the subscribers names the Executive Committee offer as apology their desire to show how generously this call has been responded to, and by the strictness of the list, how large the number of citizens of Allegheny, to whom we now appeal for contributions to erect additional buildings, which are much needed, on the lot where there is abundance of room for the purpose.

We hope this work will commend itself to the sympathies and benefactions of those who have abundant means, and that thousands will yet be raised to complete and beautify a place which gives independant and separate homes, to so many families of God's poor. His widows and orphans, whom he has promised to bless. Every one who casts into this treasury of the Lord is a co-worker with Him, and verily will receive his reward.

List of subscriptions already made for the Widows' Home:

Operating for Silver in West Virginia.

A correspondent, who has just paid a visit to the Jackson county, West Virginia, silver mines, writes to the Parkersburg *Times* the following facts obtained from the Superintendent, Mr. Wm. Cunningham: The Company now operating is composed of six gentlemen from Pittsburgh and vicinity, of which Mr. Fisher is President, and Mr. Conker, Secretary. They are known to many as the "Pittsburgh Silver Mining Company." They have been to work about two months, and have sunk a shaft 6½ by 12½ feet clear, to the depth of 50 feet. There have been three wells bored in the vicinity, all finding the "stuff" at various depths. The well nearest the shaft "struck" as follows: 1st show, 80 feet; 2nd, 220; main vein at 338 feet; more or less quartz was found above all three of these veins; about six feet was passed through before striking the main vein, so I was informed. The site of the shaft was chosen by Prof. Wm. Eikhoff, a German geologist and a member of the Company. The rock now being thrown out has been analyzed and found to contain a per centage of silver equal to forty dollars to the ton. The Company seem very confident and determined to "see it through" as soon as possible; they are about to place a large engine—and intend to work night and day, so they say.

COLUMBIA FIRE COMPANY.—The Committee on Fire Engines of the Allegheny Councils have taken from the Columbia Hose, Hook and Ladder Company the hose carriage they have been using for some time past, for the purpose of bestowing it on another organization. The Duquesne Company, of this city, kindly tendered them the use of their apparatus until such time as a new one could be procured. At a meeting held on Saturday evening, the Columbia passed a resolution thanking the officers and members of the Duquesene for their generous offer. A special meeting of the members of the Columbia Company will be held this evening, for the purpose of taking action in regard to accepting the terms of the City Councils to be placed on the same footing with other organizations comprising the Fire Department.

DEATH OF CAPTAIN W. B. COULTER, FLOUR INSPECTOR.—Captain William B. Coulter, one of the most respected citizens of Westmoreland county, died yesterday morning at his residence at Latrobe, in the forty-second year of his age. He enlisted in the army in the early part of the war as Captain of Company K, 11th Pennsylvania Reserves, and lost an arm at the battle of Fredericksburg. He subsequently held the position of Provost Marshal for Westmoreland county. He recently received the appointment from Governor Geary as Flour Inspector for Western Pennsylvania, which position he held at the time of his death. The deceased was a member of Loyalhanna Lodge, No. 275, I. O. O. F. The body will be interred to-morrow morning with Masonic honors.

PATENTS ISSUED.—The following patents to Western Pennsylvanians were issued from the United States Patent office, for the week ending April 9th, 1867, each bearing that date:

Edward Sullivan, of Pittsburgh, Pa., for improvement in piston packing.

David B. Goewy, of Birmingham, Pa., for improvement in mode of mortising hubs of wagon wheels, and the tenons of spokes to fit the hub.

David Dick, of Meadville, Pa., for improvement in air and gas engines.

Alonzo C. Rand, of Union Mills, Pa., for improved mode of protecting china, glass and other articles.

THE GRACIOUS REVIVAL.—Thirty persons were admitted into full membership at the Sixth Presbyterian Church, (Rev. Prof. Wilson, pastor,) yesterday noon. The Rev. Herrick Johnson, of the Third Presbyterian Church, preached in this church last evening to a large congregation. The work of God in this parish is prospering under the superintendence of the Rev. Mr. Wilson, who is one of the most zealous and effective men in the Presbyterian ministry.

INSURANCE ON THE BURNED COAL TUGS.—The following are the amounts of insurance on the coal tugs Dick Fulton No. 3 and Dolphin, which were destroyed by fire on Thursday night. The Companies are all of Pittsburgh: Fulton, in the Eureka, $7,000; Pittsburgh, $6,500; Citizens, $6,500. Dolphin, in the People's, $4,000; Eureka, $3,000; Citizens, $4,000; Boatmen's, $3,000.

COAL AND COAL MINING.—Remember Prof. Rockwell's (of Yale College) Lectures on this subject to-morrow night, and again on Thursday, at Masonic Hall, under the auspices of the Young Men's Christian Association. Prof. Rockwell has the reputation of being the best posted man on this subject in the United States.

SOUTHERN DESTITUTION.—An adjourned public meeting of citizens will be held at the Board of Trade Rooms, Wood street, this afternoon at three o'clock, for the purpose of taking action for the relief of the destitute people of the South. It is hoped there will be a large attendance.

ALLEGHENY COUNCILS.—A special meeting of the Allegheny Councils will be held this evening.

HYGEIA.—There will be a meeting of the members of the Hygeia Base Ball Club at the office of McMaster, Gazzam & Co., Grant street, at four o'clock this afternoon, for the purpose of re-organizing.

LINCOLN B. B. CLUB.—The Lincoln Base Ball Club, of Allegheny City, re-organized on Saturday by electing the following officers for the ensuing year: President, C. A. Carpenter; Secretary, W. W. McClelland; Treasurer, John T. Woods; Directors, Jno. Earl, L. H. Smith, S. C. Lane, J. F. Kurtz, J. M. Knap; Field Managers, G. J. Gorman, John Telford, J. A. Steel.

GRAND ARMY OF THE REPUBLIC.—Post No. 34, District of Allegheny, Grand Army of the Republic, was organized recently at Braddock's Field, and the following officers elected: Post Commander, Isaac Mills; Senior Vice Commander, ———; Junior Vice Commander, C. J. Somers; Post Adjutant, C. C. Fawcett; Post Quartermaster, David Nichols; Post Surgeon, J. M. Mattock; Post Chaplain, W. B. Higby; Post Trustees, ———. The Post meets at the Braddock's Field School House every Tuesday evening.

Posts are also about being formed in Manchester, Temperanceville, Birmingham, McKeesport, Buena Vista, Sharpsburg and Bakerstown, and the German soldiers of the Third ward, Allegheny, and those in the Fifth and Ninth wards, Pittsburgh, have applied for charters. The colored soldiers in this district have also made arrangements to organize a Post.

THE GREAT IRON CITY UNION STATES FAIR.—Mr. Kinney, the business manager of this grand affair, informs us, and we have seen the list, that the business men are coming forward, so far, in the matter of contributions more liberally than any other city has done, which speaks volumes for the generosity of our citizens, and we hope all others will do likewise. The Fair, if gotten up according to the programme, will most certainly draw to the city the largest crowd of strangers ever yet congregated here, and as it will continue for a week, and probably ten days, persons attracted here by it will have to expend a large amount of money, which in the aggregate will be swelled to hundreds of thousands, which being divided amongst many will be a great benefit to everybody, and will make things look lively for the time being, and help "drive dull care away." As canvassers are now calling on our business men, we trust that all those who have not yet contributed will do so immediately, so that we may know in a few days whether Pittsburgh or some other city is to have this stupendous fair or not.

THE YOUNG MEN'S MERCANTILE LIBRARY ASSOCIATION—EXTRA LECTURES.—The Lecture Committee of the Young Men's Mercantile Library Association, who have faithfully and agreeably fulfilled their promises made at the beginning of the late lecture season, propose as a fitting climax to their highly successful course, to give four extra lectures, which will conclude their entertainments for the present season. The Committee, we learn, have secured the distinguished scholar, Wendell Phillips, to deliver his beautiful lecture on "The Lost Arts," at the Academy of Music, on Saturday night next. They have also made an arrangement with the celebrated English reformer, Henry Vincent, for three lectures, to be delivered next week. These lectures, it is scarcely necessary to say, will be equal if not superior to any that have preceded them in the regular course. The Lecture Committee, individually and collectively, have labored arduously in their sometimes thankless position, but have succeeded admirably in maintaining the excellence of the reputation of the Association's Lectures, and one and all merit the endorsement of the discriminating and intelligent, by the some liberal attendance at their extra lectures as has graced those of the regular course. May we not anticipate that these later efforts will meet with the most liberal encouragement.

The McCoy's Station Tragedy.

The preliminary trial of Lewis K. McCoy, on a charge of murder, in the killing of Joseph McDonald, at McCoy's station, on the Cleveland and Pittsburgh railroad, on Saturday, 6th inst., commenced on Friday afternoon last in the court room at Steubenville. Most of Friday afternoon was spent by the counsel for the defense, in attempting to postpone the trial until witnesses could be procured. The counsel for the State were anxious for the trial to go on, claiming that the defendant had no defence to make. A postponement of the hearing was refused. Upon the re-assembling of the court on Saturday morning the examination was proceeded with. The court room was constantly crowded during the entire day, by a curious crowd. Most of the forenoon was occupied in the examination of one witness, in which points of law frequently came up for lengthy discussion by the opposing counsels. At the opening of the court in the afternoon, Squire Oliver announced that no more testimony for the State would be admitted after that day, unless for the purpose of rebutting testimony of the opposing counsel.

Young McCoy, who was with his father at the time he shot McDonald, was arrested at McCoy's Station on Friday morning, together with Mrs. Mushrush, who gave McCoy the gun, and both lodged in the Steubenville jail, as accessories to the murder.

CRIMINAL COURT.—On Saturday morning the March term of the Criminal Court closed, and Judge Sterrett pronounced the following sentences:

Wm. Seibert, of Beaver county, convicted of murder in the second degree, for shooting John Callahan, in Lawrence county, in August last, was arraigned for sentence. The prisoner, who is over fifty years of age, kept a tavern in Beaver county, and shot Callahan for refusing to leave his premises. Callahan was brought to this city and taken to Mercy Hospital, where he died about ten days afterwards. The court sentenced Seibert to undergo an imprisonment in the Penitentiary for the term of eight years.

Thomas W. Flannery, convicted of uttering a forged draft, was called up. Two weeks ago, Flannan secured postponement of his sentence, by assuring the Court that if an opportunity was afforded him he would be enabled to prove that the draft had not been forged. The necessary testimony not being forthcoming on Saturday, the Court sentenced him to five years' imprisonment in the Penitentiary.

James Williams, of the Bowery Saloon, on Fifth street, convicted on Friday of illegal liquor selling, was sentenced to pay a fine of one hundred dollars, the costs of prosecution, and to be imprisoned in the county jail for two months.

Philip Heist, tried on a charge of felonious assault and battery, on oath of Sarah Smith, and convicted of simple assault and battery, with a recommendation to mercy, was sentenced to pay a fine of two hundred dollars and costs, and to undergo an imprisonment of four months in the county jail.

Ovid Rigby, a lad sixteen years of age, convicted on a charge of stealing a quantity of articles from James H. Alkins's bookstore, on Fifth street, was ordered to be committed to the House of Refuge.

John McCoy, convicted of the larceny of a box of turkeys, at the Diamond Market, from Thomas Ryan, was sentenced to pay a fine of five dollars and costs, and to be imprisoned for thirty days in the county jail.

In the case of N. Senton, charged with illegal liquor selling, a *nol. pros.* was entered upon the payment of costs.

Court then adjourned till Saturday morning next.

DISTRICT COURT.—Before Judge Williams.

Victoria Stoner vs. J. C. Bradley. Verdict for plaintiff for $226 68.

On motion of James A. Lowrie, Esq., Wm. T. Haines was admitted to practice in this Court.

Owing to the indisposition of Judge Hampton, and the fact that Judge Williams will hold a special Court in Uniontown during the present week, the District Court adjourned until Monday, the 22d inst. Jurors summoned for to-day will be excused for one week.

POLICE INTELLIGENCE.

[Before Mayor Morrison, of Allegheny.]

RESISTING OFFICERS.

The Allegheny night watch undertook to arrest three disorderly characters in the Third ward, that city, on Saturday night, and were assaulted by four young men who attempted a rescue. The watchman were reinforced, and then took all the men into custody and conveyed them to the lock-up. They were allowed to depart yesterday on paying nominal fines.

[Before Alderman Mullin, of Allegheny.]

[Before Alderman Donaldson.]

ASSAULT ON A CONDUCTOR.

G. F. Frecke, conductor of car No. 5, Citizens' Passenger Railway, on Saturday preferred a charge of aggravated assault and battery against a young man named Hackett, and four or five others whose names are unknown. Mr. Frecke alleges that Hackett got on the car at the Skating Park, and when near the toll-gate four or five others took passage, and immediately commenced a most outrageous assault on him. He was knocked across the dash-board of the rear platform, and beaten about the face and head in a brutal manner. Warrants for the arrest of the rowdies were issued.

[Before Alderman Strain.]

ABUSING A CHILD.

Officer Seth Wilmot made an information on Saturday against Ann Nelson, for assault and battery, in violently assaulting deponent's little daughter, and beating her and pulling her hair. A warrant was issued.

ARRESTED ON SUSPICION.

A young white woman was arrested on Saturday and taken before Alderman Lindsay, of the Sixth ward, on suspicion of being the mother of the infant found in the graveyard at the head of Webster street, on Sunday, March 31st. The accused boarded with a colored woman named Mrs. Fairfax, residing at No. 35 Crawford street. A number of colored women were summoned as witnesses but their testimony was of a very unsatisfactory character. The physician who had been called in to attend the accused testified that he had visited her two or three times, and that there was no indications that she had given birth to a child. The arrest, it appears, was based on assertions made by a colored woman when quarreling. The Alderman, after hearing the evidence, promptly discharged the accused.

ARRESTED ON AN ATTACHMENT.

Thos. Regan was arrested on Saturday by officer Thomas on an attachment for contempt of Court, in failing to testify in the case of the Commonwealth vs. John M. Coy. He was committed to jail.

TAKEN OVER.

Deputy Sheriffs Stubbs and Cluley on Saturday conveyed to the Western Penitentiary, in Allegheny, Wm. Smith, convicted of highway robbery and sentenced to four years' imprisonment. The same officers also took to the House of Refuge the lad Ovid Rigby, sentenced there for stealing newspaper files.

RELEASED.

Samuel K. Mellon, committed to jail by Mayor McCarthy, for highway robbery, gave bail on Saturday for his appearance and was released.

ANOTHER RAILROAD DISASTER.

Locomotive on the Pennsylvania Railroad Thrown Off the Track and Wrecked—One Man Killed and Four Injured.

Another terrible disaster occurred on the Pennsylvania Central Railroad, on Friday night, near Shafton, one mile east of Irwin Station, Westmoreland county, and seventy-two miles from this city, resulting in the death of one man and the injury of four others. It appears that Locomotive No. 372 had taken a loaded coal train from Shafton Coal Works to Derry Station, and was backing in without cars on Friday night, for the purpose of taking out another train. When near Shafton, about fifteen minutes past ten o'clock, the locomotive ran over a mule and a horse, which were roaming about the track. The locomotive was thrown completely off the track, and falling upon its side was wrecked. Three cars, which were standing on the other track, were also thrown off and badly damaged. Both tracks were obstructed for some time.

There were on the wrecked engine, the engineer, Mark O. Knowlton, the fireman, Samuel Reese, the conductor, Joseph W. Nichlin, and Noah Fry and —— Seaton, both brakesmen. Mr. Knowlton, the engineer, was instantly killed, being cut almost to pieces, and so mangled as to be scarcely recognizable. Mr. Nicklin, the conductor, was slightly scalded, and received several severe bruises, none of which, however, are of a serious nature. Mr. Reese, the fireman, was bruised to some extent, but his injuries are not considered serious. Mr. Fry and Mr. Seaton, the brakesmen, were also scalded, but not seriously.

Mr. Knowlton, the deceased, was a young unmarried man, and resided with his father and two sisters about one mile from Johnstown. W. H. Devore, undertaker of this city, left early Saturday morning for the accident, and removed the remains to the home of the deceased. He was a member of Duquesne Lodge, No. 52, I. O. O. F., this city. A number of members of this Lodge, together with members of sister Lodges, left yesterday morning on the Cincinnati Express Train for Johnstown to attend the funeral.

Mr. Nicklin and Mr. Seaton reside in Allegheny City, and were brought to their homes on Saturday morning by the mail train, which arrived at six o'clock. Drs. Dickson and Hamilton, of this city, are attending them. Mr. Reese resides at Greensburg, and Mr. Fry at Latrobe. They were also taken to their homes on Saturday.

Shortly after the accident on Friday night, a dispatch was received here, and a wrecking train was immediately sent out. The tracks were both cleared by half-past six o'clock on Saturday morning, and trains are now running as usual. The engine, as we have said, is badly wrecked but not ruined. It will be taken to Altoona for repairs.

Justice Laird, of Greensburg, proceeded to Johnstown on Saturday to empannel a jury, preparatory to holding an inquest on the body of Mr. Knowlton.

He was an ingenious mechanic, and his printing press is a wonderful piece of mechanism, which may yet prove of great benefit to the printing business. "COAL AND COAL MINING."—There is scarcely a subject more intimately related to the interests of Pittsburgh than Coal and Coal Mining. To hear any one speak on this subject who is thoroughly familiar with it cannot be otherwise than interesting. Prof. Alfred S. Rockwell, of Yale College, is said to be the best posted man in the United States in regard to coal. It will be gratifying, therefore, for our citizens to know that he has consented to deliver two scientific lectures on this subject, on Tuesday and Thursday evenings of this week, at Masonic Hall, under the auspices of the Young Men's Christian Association of Pittsburgh. By all means go and hear him.

HOW TO SAVE MONEY.—The art of making money, or getting rich, consists in saving it. This is just as true in regard to your purchases as it is in putting money into the bank. Take for example the great sale at retail of Boots, Shoes, Balmorals, Gaiters, Slippers, Dry Goods, Hoop Skirts, Carpets, etc., which takes place to-day and to-night at McClelland's Emporium, Nos. 55 and 57 Fifth street. Here is an opportunity afforded to buy goods for yourself or your family at low rates. This, then, is the proper place for every man to patronize who would save money. Go and examine the stock, and be convinced of the correctness of our statement and the soundness of our advice.

THE MONITOR WASHING MACHINE.—Of all the many inventions with which the world is deluged in this age, none comes so nearly home to us as the washing machine. The reason is obvious. It affects our home comfort so largely, that every member of the household rejoices in the revolution wrought out by this benevolent exercise of man's ingenuity.

In past times, the great bug-bear of the family was washing-day. Monday—sad, dreary Monday, with its eternal slop and suds. The antipathy of the male species to the operation of cleansing. Horrible, in the extreme. Well, many a day has passed, since washing machines have been introduced; but, the question has been, which is the best?

We have thought long and earnestly over this question, and, in the interest of families, have studied the matter carefully without being able to arrive at a conclusion, until now.

Passing down Smithfield street, we saw, at Robberts & Sherratt's, No. 61, the Monitor Washing Machine. On examination, it seems to meet the want exactly. As a labor-saver, it is certainly complete. It washes and wrings in the easiest and simplest manner possible. Of all the efforts to abridge female labor this is the most effectual. Let any one examine it and see for themselves. Inquire at Robberts & Sherratt's, No. 61 Smithfield street.

MR. W. MILLER says:

PITTSBURGH, September 4, 1866.

Messrs. Hostetter & Smith, Pittsburgh, Pa.:

GENTS: I think I am only doing the part of a good citizen when I testify to the great benefits received by me from the use of your Stomach Bitters during the last five years. Sojourning for a time in the oil regions, in 1861, I had a severe billious attack, which, in connection with dyspepsia, left me in a very weak condition. I was advised to try your Bitters, and, having procured a bottle, found that they worked like a charm upon me, eight pounds having been added to my weight in the space of one week, and new life seemed to have been infused into my system, so much so, that I have been induced to use them every summer since that time. As a tonic, I think they are invaluable.

This summer, having had a similar attack, (and as before, much reduced,) although under the treatment of an A No. 1 physician, I was again obliged to have resource to the old Bitters, and with the same good result, having gained six pounds within a few days. I purchased a half dozen bottles a few weeks since, and purpose to use them regularly as a tonic. Wishing you every success, I remain yours, gratefully, WILLIAM MILLER.

FINANCE AND TRADE.

SATURDAY EVENING, April 13, 1867.

The flurry into which the warlike news from Europe had thrown the markets has ceased, and a more steady feeling prevails. Although money in this market rules as close as ever, yet a general improvement is expected at an early day. Gold is rapidly receding back to its old figure and may go below what it has ruled at this year. Stocks at the New York board have taken a sudden upward bound to the great delight of the bulls, induced mainly by the eagerness to cover shorts whilst prices were low. Fort Wayne is advancing rapidly from its low figure, and there have large orders during the week gone forward to purchase this stock by parties in this city. Probably no other name on the Railway list is eliciting so much attention as Fort Wayne stock at the present time. The "bears" have exhausted their strength to depress it any more, and have changed their tactics, and are eager purchasers now on the advancing market. Some of our local securities show a more buoyant tone. The seven-thirty bonds of the Allegheny Valley Railroad sold yesterday at 86. These securities were affected by the excessive stringency in the money market, and although very low offers were made to purchase them, holders are firm at about 85½@86, which renders these bonds a very desirable investment.

—Half a million acres of land warrants issued to Pennsylvania by the United States, for agricultural colleges, was sold yesterday at the Surveyor General's office, Harrisburg, at from 55 to 60c per acre. When it is considered that there are over ten million acres of these warrants already issued, and all the Southern States yet to receive them, and that the same kind of warrants issued to Maryland, Ohio, Kentucky and other States, are selling at only 50 to 54 cents per acre, the State officers of Pennsylvania deserve great credit for having realized to the Treasury nearly seventy-five thousand dollars more than the same warrants could have been bought for of other States.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY EVENING, April 13, 1867.

During the week the general markets have ruled more active than they did the previous one, and there is a more cheerful feeling in mercantile circles and a higher disposition to operate. In some departments a fair amount of business is doing, and the prospect for a pretty good Spring trade is improving. There has been no change of importance in prices, during the week. The flour market to-day was a little more quiet, but holders continue firm and do not look for lower figures, but on the contrary, are looking for a further advance in prices. Grains continue active. Groceries are generally moving off quite lively. Bacon continues in good jobbing demand at about previous prices.

The receipts of leading articles of produce, per river and railroad, since our last, were as follows: Flour, 920 bbls; apples, 254 bbls; cheese, 37 boxes; corn, 532 sacks; barley, 824 sacks; wheat, 300 sacks; rye, 166 sacks; oats, 833 sacks, and butter 67 packages.

The oil market opened up with a fair amount of activity. There was a good demand for both crude and refined; prices however have undergone no particular change. The rates current on the opening of the market on Monday would answer on the present occasion. Purchasers of crude pay particular attention to the gravities. The week's receipts were the largest that was ever reported in the same length of time, amounting to 120,007 barrels. The week's sales of crude were large, reaching 41,537 barrels. The rates were, for bulk 6½@6¾c and 7c for present and future delivery—the latter figures were obtained for certain gravities. A large amount of crude received has gone to fill previous contracts. In refined oil the week's sales foot up to 19,075 barrels, most of which was for eastern delivery extending through the present year. The rates were various, being governed by the time of delivery. Sales of bonded were made on the spot, taken from the works, at 21½c per gallon. Free oil was nominal, and sold in a small way at 40c per gallon.

Saturday's transactions were liberal, crude reaching 9,200 bbls, as follows: 1,500 bbls bulk, April delivery, gravity 40@44, at 7c ₱ gallon; 600 bbls, April, 40@43 gr, 7c; 1,100 bbls on the spot, 40@44 gr, 7c; 600 bbls, on the spot in bulk, 6¾c.

REFINED—The market was firm; sales were made at an advance, particularly for the latter part of the year. The sales were 6,000 bbls of bonded, to be delivered in the following order: 1,000 bbls standard white, Philadelphia, all 1867, buyer's option, at 33c; 5,000 bbls standard white, deliverable from June to October, 1,000 bbls per month, at 31c ₱ gallon. There was a decidedly better feeling in the market at the close. Free oil was inactive at previous prices.

PHILADELPHIA—There has been very little activity since our last report, says the *Commercial List*, of Saturday, and we continue last week's quotations, although at the close the rise in gold caused a little more firmness. Sales of 1,000 bbls of crude at 16@16½c; 5,000 bbls do, in bulk, at 11c; 3,600 bbls refined, in bond, P. L. S. to W., at 25½@26c; 500 bbls S. W. at 27c; 1,000 bbls do do at 27½c, f. o. b.; 500 bbls P. L. S. to W. for May at 27c, b. o.; 1,000 bbls S. W. do at 28½c, b. o.; 2,000 bbls S. W. (500 bbls in each month from June to October) at 30½c, b. o.; 1,000 bbls do for June at 28½c, b. o.; 1,000 bbls S. W. for July at 28½c, b. o.; and free at 40@46c. Prices of Naptha are nominal. In Residuum nothing doing. The receipts, during the week, were 2,100 bbls crude and 4,450 bbls refined. The exports from Philadelphia to foreign ports, from January 1st to date, were 4,430,425 gallons, against 4,603,825 gallons same time in 1866. Twenty-four vessels are chartered and loading with Petroleum.

TITUSVILLE, PA.

The *Herald*, of Friday, says the market is firm and active with a slight upward tendency, and with an advance of from 15 to 20c from previous quotations. The upward tendency which is observable in the market is almost wholly owing to the firmness with which the producers have held their oil. There is some regularity, which has been caused by several of the producers agreeing to sell at the same price. The inquiry to-day was fair, the Pittsburgh and Cleveland buyers being in the market. On Bennehoff Run offers were freely made of $2 00 for 47 gravity oil at the wells. In the vicinity of Petroleum Center offers were made of $2 00 for 47 to 48 gravity oil at the well. On Pioneer Run buyers are offering $2 00 for 48 gravity oil at the wells. The sales are 1,000 barrels on the Stevenson Farm from G. K. Anderson's wells for the Cleveland market, 48 gravity, at $2 00 at the wells; 100 bbls on the Stevenson Farm by the Ocean Oil Company, for the Cleveland market, 48 gravity, at $2 00 at the wells; 100 bbls on Upper Cherry Run for the New York market, under 45 gravity, at $2 25 delivered on the platform at Miller Farm; 1,000 barrels on the Stevenson Farm from G. K. Anderson's wells for the Pittsburgh market, 48 gravity, at $2 00 at the wells; 500 barrels on the Stevenson Farm, from Patterson's wells for the Pittsburgh market at $2 15 delivered on the bank; 1,000 barrels on Upper Cherry Run for the New York market, under 45 gravity, at $2 25 delivered on the platform at Miller Farm; 1,000 barrels on the Stevenson Farm, from G. K. Anderson's wells, for the Cleveland market, 48 gravity, at $2 00 at the wells.

METAL MARKETS.

Our reports fully sustain our previous statements as to the condition of the question between the mill owners and puddlers. More than this, we find that another of the mills has started in, on pretty full work, at a reduced schedule—$7 00 ₱ ton for puddling, and a corresponding reduction for rolling, both of which prices were fixed by the mill owner and accepted by the strikers. Beyond this, nothing has transpired. The trade continues dull and lifeless.

NEW YORK.

Unusual dullness still prevails in all departments of the metal market, says the *Iron Age*. Scotch pig iron is quite depressed, and prices have an evident downward tendency; still very few sales, and none of any importance, are reported. The demand also for American is very slight, but prices are more firmly maintained than in Scotch. English bars both ex-ship and store are quiet and offered at a decline from previous quotations. Some large transactions in American and foreign rails are reported.

In consequence of the improved state of Russian exchange on England, Russian sheet iron has advanced to 19@19½c, gold, being an advance of 2½c on the lowest price of last week. Stocks are becoming rapidly improving, and as the credit of the country advances so will the price of sheets.

We give the report specially prepared for this journal by Messrs. Thos. J. Pope & Bro.:

The metal market continues dull, and prices gradually give way.

Ingot Copper—The transactions have been light, with sales at 23@23½c for whole lots for present and future delivery. Store lots 23½@24c.

Pig Iron—Demand light and stocks accumulating; No. 1, extra American, $40 00@42 00; No. 2, extra, $38 00@40 00; No. 2, $35 00@37 00; Scotch from ship, $41 00@42 00.

Bar Iron—Dull at $95 00 for refined, and $85 00 for common, from mills.

Rails—Dull.

Spelter—Dull, at 6½c, gold, for whole lots. Store lots 9½@10c, currency.

Lead—Dull, at 6½c for whole lots, gold. Store lots 9@9½c, currency.

Tin—Straits 22c, gold, for whole lots. Store lots 30@30½c, currency.

PHILADELPHIA.

Pig metal continues dull at the decline, says the *North American*, of Saturday. Sales of 700 tons of No. 1 Anthracite at $40@41 ₱ ton; No. 2 at $38 and forge at $37 ₱ ton. Scotch pig is quoted at $45@46. Manufactured iron is firmly held, but the demand is limited.

IRONTON, O.

The general stand-still yet continues. Most of the furnaces, says the *Register*, however, are busy getting in stock for this year's operations. Metal has undergone no change in rates. Some slight shipments have been made in the past week. The mills are yet idle and the prospects existing a short time since of a resumption of work have been dissipated by reports from the east. There is now not the slightest indication that the mills will go into operation this month. Matters about the foundry are unchanged. The Belfont Iron Works are pushed with orders, and the stock of nails is not allowed to accumulate. Nails are shipped by almost every boat. Prices unchanged at $6 75 for 10d.

Cincinnati Provision Circular.

The provision market has exhibited no new feature during the past week says the Circular of Geo. W. Phillips, Jr., of Friday last, except perhaps an increased desire to realize, and concessions have been made in most articles in order to effect sales. The demand is almost entirely consumptive and comes generally in small orders, but many of them thus aggregating largely in exports. There is almost a total absence of speculative demand. Some bulk meats are being laid away in hopes of higher prices in the future. Mess pork has been dull all the week, with larger offerings than could find buyers. At the close city mess would not bring over $22 50, and country $22, but 12½@25c more was generally asked. Rumps are in light supply and demand and range at $14@16 as in quality. Lard has been very dull all the week and difficult of sale at over 12½c, though ½c more is generally asked for prime city kettled; country prime ½c less; keg dull at 13½@13¾c. The stock of the lower grades is light and nominal, at 12c for head and 11½@11¾c for head and gut. Greases are scarce, and in fair demand at 8½@10½c for the range of grades. Bulk meats have been in moderate demand; city cuts held at 8c, 10c 10½c and 11c for shoulders, sides clear-rib sides and clear sides, loose, but buyers contend for a concession on these figures, and in some instances have obtained it. At country points these prices have been accepted, packed. Plain hams of small averages in fair demand at 11c, loose. Bacon has also been dull all the week, and to-day shoulders, sides, clear-rib and clear sides sold at 9½c, 11½c, 11¾c and 12½c, all packed in fly-tights. Plain hams are dull at 13c, canvassed and packed, or 20@20½c, uncanvassed, and packed in tight tierces. Plate beef scarce; held at $21 75@22 50.

Detroit Lake Fish Market.

The stocks are now becoming thinned out, says the Detroit *Post*, and there is an improved demand and decidedly a better feeling, but without any quotable advance. We note sale of about 500 packages, at $6 for white and $4 50 for trout. The demand is mostly for the market South of us, with occasional inquiry for New York. So far as concerns the Southern market, the Lake Erie ports have had a little the advantage of our dealers on the score of freights, but the stocks in those ports have now become exhausted, and buyers are therefore turning their attention to Detroit, which is, geographically, the headquarters of the trade. The stocks now held by our dealers aggregate somewhere between 10,000 and 12,000 packages of white trout, and 200 packages of pickerel. The season for securing the spring catch, opens between April 20 and May 1. Preparations are being made by the fishermen on a good scale. From present indications the operations will be just as extensive as last season. Should improved luck crown their efforts, there is no reason to doubt that a market will be found at the moderate rates at which fish have ruled latterly.

Providence Printing Cloth Market.

The market has been moderately active during the week ending Thursday evening last, and prices, says the *Economist*, in sympathy with cotton, are a little easier. Sales of the week 45,000 pieces, principally at 10c. The following are the prices of to-day:

64x64, 9½@10c.
60x64, 9½@9¾c.
56x60, 8½@8¾c.
52x52, 8½c.

The Providence *Journal*, of Monday, says: Market very weak with a downward tendency. The printers are having it all their own way. Manufacturers scarcely get a new dollar for an old one. The following are the sales:

8,000 pieces 64x64, 10¼c, early in the week.
11,000 " 64x64, 10c.
5,000 " 64x64, 9¾c, common.
5,000 " 60x64, 9½c.
4,000 " 56x60, 8½c.

34,000 pieces.

Coal Markets.

PHILADELPHIA.

The market is very dull. We quote white ash at $4 50@4 75, and red ash at $4 75@5 25 ₱ ton, as to quality.

CINCINNATI.

On Friday the market remained unchanged and steady. A portion of what left Pittsburgh early in the week for this point has arrived. It was not, however, sufficient to have any influence on the market. We quote Ohio River 9c, and Youghiogheny 11c ₱ bush afloat. The rates delivered to consumers are 14@16c for Ohio River, and 16@18c for Youghiogheny.

LOUISVILLE.

Sales by the load, retail, 20c; wholesale, 12@16c, afloat, ₱ bush. Pomeroy to boats, 14c.

Baltimore Coffee Market.

There has been an active movement this week in Coffee, says the *Commercial* of Saturday, and the market has throughout been very strong and buoyant. The sales add up about 16,000 bags, and they include 2,800 bags Rio, ex "James Carey Coale," and 1,400 bags ex Wavelet, in bond on private terms; 1,600 bags ex Wavelet at 12½c gold in bond, 1,100 bags of which were sold to-day, 400 bags ex Adelaide Pendergast at 11½c, 4,000 bags same cargo, at 12, 12½@12½c; 1,000 bags ex Sir Humphrey Davy, at 13½c; 500 bags, same cargo, at 14c, all gold in bond; 1,000 bags fair Rio, in lots, at 17@17½c, and 2,500 bags do, in lots, at 18@18½c for good, and 19@19½c for prime and choice, all gold duty paid. We quote to-day as follows: Viz: Rio at 11½@14c gold in bond for fair to prime invoices, and jobbing lots do at 17@18½c for fair to good; 19@19½c for prime and choice, gold duty paid; Laguayra at 18@19c, and Java at 25@25½c, gold duty paid. The imports this week comprise 4,249 bags Rio per bark Wavelet, 2,800 bags do, per brig James Carey Coale, and 4,445 bags do per bark Adelaide Pendergast; total 11,484 bags.

New York Finance and Trade.

Gold Closed at 135⅜@135⅝.

NEW YORK, April 13—P. M.

THE MONEY MARKET

Was easy; towards the close of bank hours first class borrowers offered money at 6 per cent. on stock collaterals; on governments 5@6 per cent. The bank statement on Monday will be very favorable; loans will show a decrease of about $2,300,000, and deposits $1,250,000, while specie will be increased $700,000 and legal tenders $1,200,000. The demand for money has greatly fallen off, and the large decrease in loans is evidently due in part to voluntary liquidation, while the deposits are naturally lower with the loans. The increase in specie is owing to the sales by the Government, and the augmentation in the legal tender reserve is due to the liberal receipts from the interior and heavy disbursements of the government.

GOLD

Has been very uniform and steady throughout the day, and the fluctuations only equal ⅜ per cent. Loans were made from flat to 1-32 per cent premium, and afterwards from 2 to 6 per cent was paid to have gold carried over till Monday.

GOVERNMENT SECURITIES

Firm at the advance of the morning. The demand to-day run largely on 5-20 coupons of 1862 and old issue of 1865. Weekly Review of the Wholesale Market.

NEW YORK, April 13.—The excitement in flour has continued, and there has been a further advance of 75c to $1. The advanced prices have checked consumption. The stock is slightly reduced, and with moderate arrivals in prospect, the tendency is up at the close. There is a good business in California and Oregon flour, which is becoming popular with the trade.

Wheat has fluctuated somewhat, although prices are higher at the close, particularly for white, which is taken freely. Large sales of California and Oregon at $3 25 to 3 40, closing at the extreme rates. The stock is reduced to about one million bushels of sound wheat. There is also considerable inferior spring here, which is unsalable.

Rye advanced, with a large business, and closes strong. The stock reduced to 320,000 bushels, which is large for the season.

Barley has been in fair demand and sold at irregular prices. Bonded improved, while free has declined. The stock is reduced to less than 600,000 bushels.

Oats have been in brisk demand and advanced materially, and close strong. The stock is about 15,000,000 bushels, an unusual supply for the season.

Corn has been in active demand and excited at times, and closes buoyant; the stock is reduced to 1,670,000 bushels. Pork has been offered freely, fluctuated rapidly and declined; at the concession, demand is quite spirited.

Beef has advanced; the stock is almost exhausted.

Cotton has been unsettled with only a moderate business; holders are not willing to submit to the decline, and business has been with the manufacturers and exporters; prices steady.

There has been a fair trade in Rio Coffee at easier rates; fair to prime 17½ to 19½c, gold.

There has been a moderate business in Petroleum; at the close there was some inquiry for export on speculation; crude is quoted at about 16½c, and refined in bond 27½c, for standard.

THE RIVER AND MATTERS ALONG THE WHARF.—The weather has been very pleasant for some days past. Our rivers are in fine navigable order. The Monongahela marks indicated nine feet six inches; Allegheny marks ten feet six inches and falling. The tow-boats are again having a busy time. The following expect to get off this day: Fearless, Baltic, Jim Brown, Reindeer and Leopard. The Ida Rees left for Louisville with a good trip. The Grey Eagle left for Parkersburg on time with a good trip. The first class packet America, Captain Golding, leaves for New Orleans on the 17th. Walter Brown, of Portland, arrived yesterday. He is matched to row James Hamill for the championship of America, on the 21st of May next, for a purse of two thousand dollars. His boat is a beauty. Business on the Monongahela is improving. The same may be said of the Allegheny river trade. The St. Louis packet Lorena is announced for this day. The new steamer Glendale leaves to-day for St. Louis and Missouri river direct. The Columbia is announced for the upper Mississippi river on Thursday next positively. The Ezra Porter came in with a fine trip. She will return to Cincinnati on Saturday next positively. The Bayard leaves to-day for Parkersburg. The Ingomar departs for Matamoras on time. The Importer, a first class packet, is receiving for St. Paul and will have dispatch. The Spray leaves for Portsmouth on Tuesday at 4 P. M.

THE Grey Eagle left on Saturday for Parkersburg, with a good trip.

WE are indebted to the officers of the steamer Ezra Porter for attentions to this office.

THE Kenton, Capt. Dunlap, passed Cairo on the 11th on her way to New Orleans.

THE tow boats Fearless and Jim Brown came in yesterday and will make ready for another trip.

THE steamer Leonidas arrived at New Orleans on the 11th.

THE steamers Argosy and Glasgow left Cincinnati for this port on Friday.

THE packet Spray, Captain Smith, will return to Portsmouth on Tuesday, at 4 P. M.

THE Sherman reshipped her Pittsburgh freight at Cincinnati, and would return from that port to St. Louis.

THE following towboats arrived at Cincinnati on the 12th: Bengal Tiger, Hercules, Resolute, Alps, Star, Tom Rees and Eagle.

THE following tow-boats are expected to get off this day: Fearless, Baltic, Jim Brown, Reindeer and Leopard, the water being at a fine stage.

THE fine packet Ingomar, Captain Kemple, leaves for Wheeling and Matamoras this day at 11 A. M. A good boat and in charge of careful and attentive officers.

THE Ida Rees, Captain Joseph Brown, left on Saturday evening for Cincinnati and Louisville. She will go through without reshipping.

THE fine packet Importer, Capt. John Noss, is announced for St. Louis, Galena, Dubuque and St. Paul. This boat has the best of accommodations and is in fine condition.

THE splendid passenger steamer Lorena, Captain S. Shuman, is announced for Cairo and St. Louis. This boat has very superior accommodations, and is in charge of careful and experienced officers. To persons going that way a fine opportunity is presented.

THE new and splendid passenger steamer Glendale, J. M. Hare commander, is announced as an independent packet for St. Louis and the Missouri river. This boat has superior accommodations, and is in charge of careful and attentive officers. Our old friend Mellon does the honors in the office.

THE DUBUQUE AT CINCINNATI.—Saturday's *Commercial* copies our report and says: The new Northern Line packet Dubuque, built at Pittsburgh, and leaving for St. Louis and St. Paul this evening, on her first trip, is unquestionably one of the handsomest and most commodious boats ever built for the Upper Mississippi trade. She was modeled by Capt. R. C. Gray, and Mr. W. C. Gray carefully superintended every stage of her construction.

ZANESVILLE, O.—The *Courier* says: The steamer J. H. Best, which was sold at Sheriff's sale some two weeks ago, under an order of the Court of Common Pleas for this county, (water-craft proceeding,) and since used as a wharf boat at the Putnam landing, was seized yesterday, for debt, by Deputy United States Marshal Andros Guille, and is again in "limbo." W. Crawford, of Harmar, Ohio, and Willis Johnson, the former clerk of the boat, are the parties who have commenced proceedings in the United States District Court for their claims; the former's amounts to $6,300, and the latter to $700, making the total $7,000.

This will test the question whether Sheriff's sale of a boat under the water-craft proceeding of this State is good.

Cincinnati Items.

The Armadillo left for Vicksburg with an excellent trip, being compelled to refuse freight early in the day. She transferred sixty tons to the Westmoreland.

The Emma No. 3, Captain J. H. Maratta, will follow the Westmoreland to New Orleans.

The Potomac reports the tow-boat H. C. Wilson laid up at New Richmond, having broken her shaft on Wednesday night.

Six of the A. J. Baker's barges are still aground on the rocks of the falls.

FIRST ARRIVAL AT DUBUQUE.—The Savannah was the first arrival of the season at Dubuque. The excitement was great. The *Times* says: "Upon her hurricane deck stood the popular river veteran, Captain A. McGowin, and on the guard there stood 'Judge' Bready, complacently smiling as if mightily pleased with the honor of occupying the office of the pioneer boat of '67.'"

From 1840 to 1867 inclusive, navigation has opened at Dubuque on the following dates: March 7th, 18th, 9th; April 15th; March 6th, 1st, 11th, 8th, 28th, 16th, 12th, 27th, 12th, 19th, 16th, 24th; April 3d, 1st; March 15th, 8th, 11th, 12th, 30th, 7th, 26th, 19th, April 4th, 5th.

The Lady Pike, due from Dubuque, is commanded by Capt. Bradford, with W. E. Robinson in the office. This boat and the Savannah are bringing full cargoes. The Ice City Mills shipped 350 bbls flour on the Savannah, and the City Mills 700 by the Lady Pike.

A telegram states the McCune, White river packet will arrive here Monday and leave again with dispatch.
